buddhists hindus and sikhs in america explores the challenges that asian immigrants face when their religion and consequently culture is remade in the u s a peppered with stories of individual people and how they actually live their religion this informative book gives an overview of each religion s beliefs a short history of immigration and discrimination for each group and how immigrants have adapted their religious beliefs since they arrived along the way the roles of men and women views toward dating and marriage the relationship to the homeland the brain drain from asia of scientists engineers physicians and other professionals and american offshoots of asian religions such as the hare krishnas and transcendental meditation tm are discussed

sikhs have struggled with questions of identity for over five centuries various events during this century have forced sikhs in the punjab and diaspora to rethink assumptions and relationships both within the community and outside papers in the volume address the core issue of sikh identity and are organized in three sections section one deals with issues relating to symbols of identity and sikh tradition section two relates to recent sikh history and issues of identity and section three addresses political social issues and contemporary sikh identity an glossary of punjabi terms and index help the reader better understand the presentation

presenting current research on young sikhs with multicultural and transnational life styles this volume is the first of its kind devoted to the religion of young sikhs in the global community discussing their interpretation shaping and negotiation of religious identities traditions and authority on an individual and collective level qualitative research and ethnographic fieldwork from new and established academics analyses how young sikhs try to solve social intellectual and psychological tensions between the family the expectations of the majority society punjabi culture and religious values

this handbook divided into four volumes presents the first english translations of newspaper articles about the sikhs published in the weekly press reports for punjab between 1864 and 1924 covering press material from over 300 newspapers the book provides insights into the broader landscape of print media in indian languages and how discussions on the sikhs in the press evolved in response to changing imperial policies and politics in a growing field of research on print cultures and publics in colonial india the book offers unique source material for a nuanced and localized understanding of the history of the sikhs in punjab invaluable to both scholars and students of history punjabi society religion and politics this is volume 2 of a 4 volume set

the sikh militant movement spanned one and a half decades during which a considerable loss of life occurred in and outside punjab in terms of its spread it almost became international in character

largely due to the presence of diaspora sikhs in most of the western world this work is based on the analysis of the speeches and messages of the leaders of the militant movement it has been argued without essentializing the problematic that the nature of discourse of the militant movement could be traced back to the construction of sikhism in the second half of the nineteenth century the ideology of the singh sabha movement and its attempt at the construction of singular religious identity provided the dynamics to the sikh community in the process the religious tradition was invented which emphasized the singular sikh identity by paving the way for the fundamentalist discourse of separatism the composite religious tradition in sikhism was put at the margin of the community as a result of which it became possible to construct sikh nationhood coupled with this construction was the attempt of the militants to purge the community from all syncretism practised by the sikhs it has been argued that despite this construction the sikh community has continued to observe the composite tradition though the threat of militant violence greatly reduced the eclectic space of inter subjective communitarian understanding and interaction

the asia pacific region is a vital and under recognized home for the sikh diaspora before 1947 most sikhs migrated east in addition to the commonly known destinations the author also examines lesser known cases of sikh migration to china korea japan and the philippines the book covers various aspects of the diaspora including the history of migration relating to the british indian army police force the british gave preference in recruiting sikhs and encouraged them to build gurdwaras and supported them to keep their sikh identity please note taylor francis does not sell or distribute the hardback in india pakistan nepal bhutan bangladesh and sri lanka
