this historic book may have numerous typos and missing text purchasers can usually download a free scanned copy of the original book without typos from the publisher not indexed not illustrated 1919 edition excerpt with small flashing spears the same as for the abraded wire at 250 mm these spears increase in number very rapidly with an increase in voltage some of them collecting so to speak into small bright beads and then breaking up again as the potential continues to increase the beads become more steady and definite so that at times the abraded wire may be covered with many small bright steady and evenly spaced beads 5 the positive visual corona for corroded surfaces is essentially the same for all pressures as has been described for the abraded surfaces at low pressures it begins with a faint flashing glow which becomes steady and uniform and which increases in brightness at pressures of 250 mm the appearance is the same as

described for the abraded surfaces and for atmospheric pressure the corona may start with the small purple brushes or fans and an accompanying flow the fans soon disappearing and the glow becoming uniform and increasing in brightness the positive glow generally begins at lower voltages for the corroded surfaces than for the polished surfaces the negative visual corona for the corroded surfaces is likewise similar to that for abraded surfaces at different pressures clear cut and steady beads are obtained at the lower pressures but are not so stable for the higher pressures in general the negative starting voltage is lower than for polished surfaces 6 in order to show a few results photographically a wire having one third of its length polished one third corroded and one third mechanically abraded was placed in a tube with a longitudinal slot and photographs were taken when the corona was on the wire fig 21 contains photographs of the negative wire the left end being abraded the center polished

this is one of six volumes that present the results of the pisa 2018 survey the seventh round of the triennial assessment volume iii what school life means for students lives focuses on the physical and emotional health of students the role of teachers and parents in shaping the school climate and the social life at school the volume also examines indicators of student well being and how these are related to the school climate
