being a doctor and going to the doctor are theological issues a major thesis of the book is that a de medicalization of
physicians is necessary and should be replaced by a scripto centric approach to life in the practice of medicine this call is
radical humanly speaking but we have a god who has given much to us as christian physicians and expects much of us
there is a biblical view of the practice of medicine and it is the major avenue that patients have for reaching true comfort
and help each physician must be able to articulate it and the book is written for that purpose a rightly understood biblical
view of medicine is the only way that doctors have for giving genuine hope to hurting people and for the advancement of
god s kingdom
