looking at medieval maps of the traditional pilgrim routes to the spanish cathedral city of santiago de compostela it is noticeable that there are no roads from scotland noticeable at least to the scots author of this book patrick farnon who splits his time between scotland the netherlands and spain says i thought it might be a good idea to invent such a route of the various well trodden roads to santiago we have the french way el camino frances the fistera way el camino de fistera the english way el camino ingles the silver way la via de la plata from seville the northern way el camino del norte along the cantabrian and basque coasts and the primitive way el camino primitivo from oviedo there s also a portuguese way so why not a scots way to santiago the situation now stands corrected in this amusing record of a personal odyssey across the shoulder of spain looking for the links between the scots and the spanish farnon mixes the medieval with the modern and discovers all sorts of marvels and wonders as well as a few charlatans in this account he covers the camino frances to santiago de compostela and way back via the camino de fistera and the camino del norte a trip of nearly two thousand kilometres he also finds more than a few ancient links which means there is at last a scots way to santiago de compostela even if it is a very singular one
