Case Study The Rise and Fall of Enron A Cautionary Tale The Enron scandal serves as a stark reminder of the devastating consequences of ethical lapses Enrons aggressive accounting practices and disregard for stakeholder interests ultimately led to its collapse wiping out billions of dollars in shareholder value and destroying countless careers Brooks would argue that Enrons downfall wasnt simply a matter of regulatory failure but a deeper failure of ethical leadership and organizational culture The lack of transparency the prioritization of shortterm gains over longterm sustainability and the silencing of dissenting voices all contributed to the companys demise This case underscores the importance of establishing a robust ethical framework as advocated by Brooks which goes beyond compliance to foster a culture of accountability and transparency

Transparency and Stakeholder Engagement The Cornerstones of Ethical Business 2 Brooks champions transparency as a fundamental principle of ethical business practice In an age of increased scrutiny and social media amplification transparency is no longer optional but essential for maintaining trust and credibility This aligns with the growing demand for corporate social responsibility CSR reporting Companies are increasingly expected to publicly disclose their environmental impact social initiatives and governance structures According to a 2022 study by Deloitte consumers are increasingly likely to support

businesses that demonstrate strong ethical and social values Furthermore Brooks emphasizes the importance of stakeholder engagement actively considering the interests of all stakeholders including employees customers suppliers and the community This contrasts sharply with a shareholder primacy model which solely prioritizes maximizing shareholder value The shift towards a multistakeholder approach reflects a growing recognition that businesses have a broader societal responsibility beyond simply generating profits Professor R Edward Freeman a pioneer in stakeholder theory argues The purpose of the firm is to create value for all stakeholders not just shareholders This echoes Brooks call for a more holistic and ethical approach to business leadership
