experiencing philosophy begins with the assumption that philosophy is not merely something you know but also something you experience and participate in the book presents philosophical theories and ideas with reference to their practical relevance to the lives of student readers to this end a number of engaging features and inserts are provided original sources numerous primary readings are included introducing students directly to the philosophical work of diverse thinkers ranging from plato to martin luther king jr each reading is thoughtfully excerpted and is followed by reflective questions philosopher profiles abstract ideas are connected to the lives of real historical figures through fascinating biographical profiles take it personally to illustrate how philosophy can be useful and relevant each chapter begins by placing the material in a personal context know thyself diagnostics this book takes seriously as did socrates the delphic oracle s dictum to know thyself students are given self diagnostics to explore their own philosophical values ideals and beliefs philosophers in action philosophy is something you do not just something you know prompts are provided throughout the text inviting students to conduct thought experiments

analyze concepts and discuss and debate controversial points thinking about your thinking these metacognitive prompts require students to engage in higher order thinking not only about the presented readings and ideas but also with respect to their own values assumptions and beliefs plus built in study guides diagrams famous philosophical quotations comics feature boxes and more

tourism is widely considered to be an important factor in socio economic development particularly in less developed countries however despite almost universal recognition of tourism s development potential the extent to which economic and social progress is linked to the growth of a country s tourism sector remains the subject of intense debate tourism and development in the developing world offers a thorough overview of the tourism development relationship focusing specifically on the less developed world and drawing on contemporary case studies this updated second edition questions widely held assumptions on the role of tourism in development and seeks to highlight the challenges faced by destinations seeking to achieve development through tourism the introductory chapter establishes the foundation for the book exploring the meaning and objectives of development reviewing theoretical perspectives on the developmental process and assessing the reasons why less developed countries are attracted to tourism as a development option the concept of sustainable development as the most widely adopted contemporary model of development is then introduced and its links with tourism critically assessed subsequent chapters explore the key issues associated with tourism and development including the rise of globalization the tourism planning and development process the relationship between tourism and communities within which it is developed the management implications of trends in the demand for and uptake of tourism and an analysis of the consequences of tourism development for destination environments economies and societies a new chapter considers the challenges of climate change sustainability of resource supply oil water and food global economic instability political instability and changing demographics finally the issues raised throughout the book are drawn together in a concluding chapter that assesses the tourism and development dilemma combining an overview of essential concepts theories and knowledge with an analysis of contemporary issues and debates in tourism and development this new edition will be an invaluable resource for those investigating tourism issues in developing countries the book will be of interest to students of tourism development geography and area studies international relations and politics and sociology

conservation and development share an intertwined history dating back to at least the 1700s but what are the prospects for reconciling the two and how far have we come with this project this book explores these questions through a detailed consideration of the past present and future of the relationship between conservation and development bringing to bear conceptual resources from political ecology social ecological systems thinking and science and technology studies conservation and development sets this relationship against the background of the political and economic processes implicated in

environmental degradation and poverty alike whilst recognising that the need for reconciling conservation and development processes remains as compelling as ever it demonstrates why trade offs are more frequently encountered in practice than synergies it also flags alternative visions for conservation and development obscured or ignored by current framings and priorities bringing together policy and theory conservation and development is an essential resource for undergraduate and postgraduate students and a useful reference for researchers in related fields each chapter contains a reading guide with discussion questions the text is enlivened by a number of new case studies from around the world a must read for anyone interested in understanding the history current state and projections for future shifts in the relationship between conservation and development

this new edition of andrew stott's comedy builds on themes presented in the first edition such as focusing on the significance of comic events through study of various theoretical methodologies including deconstruction psychoanalysis and gender theory and provides case studies of a number of themes ranging from the drag act to the simplicity of slipping on a banana skin this new edition features updates to reflect new research the field new chapters on women in comedy and race and ethnicity a broader range of literary and cultural examples written in a clear and accessible style this book is ideal introduction to comedy for students studying literature and culture

theology fantasy and the imagination offers analyses of the theological philosophical and religious imagination found in fantasy literature the theological imagination and table top games part i offers an invocation to the study through a theological reflection of the old magic part ii analyzes classical christian fantasy ranging from dogmatic theological reflection on the fantastic imagination to analyses of c s lewis and j r r tolkien part iii analyzes the post christian turn in fantasy after about 1960 through today featuring methodological theological and philosophical essays that reflect a movement beyond christianity in the fantasy literature and writings of rabbi shagar ursula le guin terry pratchett robert jordan and david eddings and brandon sanderson and orson scott card part iv closes with two analyses of the religious and philosophical dimensions of table top games including dungeons and dragons and magic the gathering theology fantasy and the imagination offers astute analyses of how theological fantasy actually is by articulating the religious philosophical and theological dimensions of the fantastic imagination

physics and literature is a unique collaboration between physicists literary scholars and philosophers the first collection of essays to examine together how science and literature beneath their practical differences share core dimensions forms of questioning thinking discovering and communicating insights this book advances an in depth exploration of relations between physics and literature from both perspectives it turns around the tendency to discuss relations

between literature and science in one sided and polarizing ways the collection is the result of the inaugural conference of elinas the erlangen center for literature and natural science an initiative dedicated to building bridges between literary and scientific research elinas revitalizes discussion of science literature interconnections with new topics ideas and angles by organizing genuine dialogue among participants across disciplinary lines the essays explore how scientific thought and practices are conditioned by narrative and genre fiction models and metaphors and how science in turn feeds into the meaning making of literary and philosophical texts these interdisciplinary encounters enrich reflections on epistemology cognition and aesthetics
