those presented in the manual

our current social security system operates on a pay as you go basis benefits are paid almost entirely out of current revenues as the ratio of retirees to taxpayers increases concern about the high costs of providing benefits in a pay as you go system has led economists to explore other options one involves prefunding in which a person's withholdings are invested in financial instruments such as stocks and bonds the eventual returns from which would fund his or her retirement the risks such a system would introduce such as the volatility in the market prices of investment assets are the focus of this offering from the nber exploring the issues involved in measuring risk and developing models to reflect the risks of various investment based systems economists evaluate the magnitude of the risks that both retirees and taxpayers would assume the insights that emerge show that the risk is actually moderate relative to the improved return as well as being balanced by the ability of an investment based system to adapt to differences in individual preferences and conditions

from the wharton school

the solutions manual prepared by bruce swensen adelphi university provides detailed solutions to the end of chapter problems

over the last ten years mobile payment systems have revolutionised banking in some countries in africa in kenya the introduction of m pesa a new financial services model has transformed the banking and financial services industry giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in kenya have bank accounts this book addresses the legal and regulatory issues arising out of the introduction of m pesa in kenya and its drive towards financial inclusion it considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity this is done with a view to understanding the regulatory capacity of kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial

inclusion it also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the central bank of kenya has taken in addressing the legal and regulatory issues presented by mobile payments the book argues there are significant gaps in the regulatory regime of mobile banking in kenya
