together histories of the unexpected not only presents a new way of thinking about the past but also reveals the everyday world around us as never before publisher s description

in a brief history of history acclaimed historian jeremy black seeks to reinvigorate and redefine our ideas about history the stories we tell about the past are a crucial aspect of all cultures however while the traditional storytelling process what we think of as history in the proper sense is useful it is also misleading not least because it leads to the repetition of bias and misinformation black suggests that the conventional idea of history and historians is constructed too narrowly as it fails to engage with the broad nature of lived experience by focusing on a singular idea or story within the history being explored we fail to understand the interconnectivity of the everyday experience a brief history of history challenges accepted norms of the historical perspective and offers a view of human history that will surprise many and perhaps infuriate some but above all it is a history of historians written for this moment in time a time when the traditional eurocentric approach to history now appears wholly inappropriate
