this book explores the reliability of official statistical data in the ASEAN the association of Southeast Asian nations and the benefits of a better vocabulary to discuss the quality of publicly available data to address the needs of all users it introduces a rigorous method to disaggregate and rate data quality into principal factors containing a total of ten dimensions which serves as the basis for a discussion on the opportunities and challenges for data quality capacity building programs and data policy in Southeast Asia tools to standardize and monitor statistical capacity and data quality are presented as well as methods and data sources to analyse data quality the book analyses data quality in Indonesia Malaysia Singapore the Philippines Thailand Vietnam Brunei Laos Cambodia and Myanmar before concluding with thoughts on open data and the ASEAN Economic Community AEC

this regional market analysis examines the challenges of economic and population growth the need to boost energy supply and growing environmental and energy security concerns

this book explores the opportunities and barriers within the intended nationally determined contributions (INDC) framework of the Paris Agreement for low carbon technology diffusion further it proposes appropriate and feasible mechanisms required at local national and regional levels to achieve the INDC targets the book employs both meta policy analysis and scenario building to examine whether the diffusion of low carbon energy future by 2030 is economically viable under the INDC framework and how international technology cooperation could accelerate investments on the scale required for achieving the INDC targets further this

book provides new perspectives on market and non market mechanisms for the globalization of low carbon technologies within the framework conditions of the paris agreement which will be of significant value to senior policy makers multi disciplinary academia and investing communities

this book focuses on multi level actions that have attracted considerable interest and discussion within academia decision makers and the public as a tool to assess anthropogenic effects of low carbon energy development the book begins with an overview of the state of the art policies in emerging economies which provides a starting point for understanding the concept of low carbon green growth a unified framework for structuring categorizing and integrating various regional level actions is established on the basis of a thorough investigation into the theoretical and methodological aspects of non conventional energy policies that have been widely adopted furthermore the book brings clarity to the relationship between clean energy policies and stakeholder participation and the significance of coordinated actions at the regional level the findings provide novel insights and policy tools to help decision makers in identifying ways to mobilize private investment in low carbon energy systems

over the past fifteen years people in low and middle income countries have experienced a health revolution one that has created new opportunities and brought new challenges it is a revolution that keeps mothers and babies alive helps children grow and enables adults to thrive millions saved new cases of proven success in global health chronicles the global health revolution from the ground up showcasing twenty two local national and regional health programs that have been part of this global change the book profiles eighteen remarkable cases in which large scale efforts to improve health in low and middle income countries succeeded and four examples of promising interventions that fell short of their health targets when scaled up in real world

conditions each case demonstrates how much effort and sometimes luck is required to fight illness and sustain good health the cases are grouped into four main categories reflecting the diversity of strategies to improve population health in low and middle income countries rolling out medicines and technologies expanding access to health services targeting cash transfers to improve health and promoting population wide behavior change to decrease risk the programs covered also come from various regions around the world seven from sub saharan africa six from latin america and the caribbean five from east and southeast asia and four from south asia
