this volume looks at sustainable protection and sustainable use of cultural and natural heritage
 particularly in view of the current challenges of the 21st century for more than 40 years the
 world heritage convention has regulated the protection of the cultural and natural heritage of
 humankind particularly in that heritage shall be protected if it is threatened by modern
 development the international community has also adopted sustainability and sustainable
 development as objectives to facilitate the protection of cultural and natural heritage sustainable
 heritage protection and use must therefore be preserved in the face of the global challenges it
 faces and must be perceived in terms of societal political and corresponding economic
 paradigms

industrial capitalism is broken the signs which transcend national ideologies are everywhere
 climate change ecological overshoot financial exhaustion fraying social safety nets corporate
 fraud government deceit civic unrest terrorism and war but there is hope this book tells how

transformation is taking root in the corporate world the last place many of us would look for solutions the book tells the stories of seven exceptional companies their shared secret is a new mental model of the firm that is the virtual opposite of industrial capitalism each company if not already a household name is a significant player within their industry and crucially has outperformed their competitors lessons can be learned it works like this instead of modeling themselves on the assumed efficiency of machines a thought process that emerged during the industrial age these firms model themselves on living systems firms with open ethical inclusive traditions where employees have a voice and a stake in what happens have a distinct advantage over traditionally managed companies where most decisions are made at the top understanding that everything of value ultimately arises from life they place a higher value on living assets people and nature than they do on non living capital assets the energy they invest in stewarding those assets a practice described in the book as living asset stewardship has is transformative

once termed the world s largest military museum the chinese military has made enormous progress over the past twenty years with skyrocketing military budgets and new technology china s tanks aircraft destroyers and missile capabilities are becoming comparable to those of the united states if these trends continue how powerful will the chinese military be in the future will its capabilities soon rival or surpass those of the united states the most comprehensive study of its kind this book provides a detailed assessment of china s military capabilities in 2000 and 2010 with projections for 2020 it is the first of its kind in outlining a rigorous theoretically and empirically grounded framework for assessing military capability based on not just weaponry but also doctrine training equipment and organizational structure this framework provides not only the most accurate assessment of china s military to date but an important new tool in the study of military history
