venti racconti d amore storie di coppie che si incontrano ma soprattutto di coppie che non si incontrano il rapporto amoroso visto come gioco combinatorio

this book addresses a central concern in the work of italy s most important contemporary novelist italo calvino it investigates the relationship between the visual and the textual in italo calvino s oeuvre a key aspect of the author s multidimensional writings

she uncovers the apparent contradiction that while calvino repeatedly advocated throughout his career of forty plus years a precise language this call for

precision did not extend to erotic subject matter where calvino sometimes felt that direct representation was virtually impossible gabriele finds that in calvino the challenge of erotic representation is linked to the complexity of the writer s role especially as articulated in calvino s famous article cibernetica e fantasmi

calvino and the pygmalion paradigm fashioning the feminine in i nostri antenati and gli amori difficili is the first book length analysis of the representation of the feminine in calvino s fiction using the structural umbrella of the pygmalion paradigm and using feminist interpretative techniques this book offers interesting alternative readings of two of calvino s important early narrative collections the pygmalion paradigm concerns the creation by a male artist of a feminine ideal and highlights the artificiality and narcissistic desire associated with the creation process this book discusses calvino s active and deliberate work of self creation accomplished through extensive self commentaries and exposes both the lack of importance calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area relying on the analogy between pygmalion s pieces of ivory and barthes seme and drawing upon the ideas underlying kristevan intertextuality the book demonstrates that despite calvino s professed lack of interest in character development his female characters are carefully and purposefully constructed a close reading of calvino s narratives engaging directly with freud lacan and the feminist psychoanalytical thinking of kofmann kristeva kaplan and others demonstrates how calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters

throughout the novels and stories the cosmicomical tales with their focus on science are seen as crucial to the development of the symbolic mindscapes that made calvino a major international writer he died before arriving at any satisfactory solution to the problems of relating the i to the not i but hume derives from his later works a philosophy based on the creation of likenesses of internal microcosms that permit us to mirror the macrocosm these interior
