a range of apocryphal and pseudepigraphic texts from late antiquity points to the importance of sunday as a holiday for baptized christians first and foremost is the so called letter from heaven which has experienced a broad and long lasting reception up to modern times although it was also criticized as a forgery from its beginning unfortunately these texts have not received sufficient attention so far this volume presents various versions of the letter from heaven as well as other texts the pseudepigraphic acts of the synod of caesarea pseudepigraphic sermons of eusebius of alexandria john chrysostom and basil of caesarea passages from the didascalia or diataxis of jesus christ the second apocryphal apocalypse of john the visio pauli a sermon of sophronius of jerusalem and the apocalypse of anastasia together with a translation and commentary an introduction tells the story of this letter and integrates it and the other texts into the cultural history of sunday it becomes clear that sunday as a day of rest and a feast day was not in the foreground of the development of an ecclesiastical festival calendar for a long time although emperor constantine enacted a law on holiday rest on sunday in 321 ce sunday rather marks the end of the christianization of time and the calendar when easter pentecost christmas and martyrs feasts were already taken for granted the authors of these texts obviously wanted to accelerate this process which is why an anonymous person even resorted to presenting christ himself as the author of this letter here severe punishments are

threatened to all who do not observe sunday who work as if it were a weekday and who skip worship the broad tradition shows that the letter was read and distributed despite all the criticism and was even turned into an early form of a chain letter

the standard account of early christianity tells us that the first centuries after jesus death witnessed an efflorescence of christian sects each with its own gospel we are taught that these alternative scriptures which represented intoxicating daring and often bizarre ideas were suppressed in the fourth and fifth centuries when the church canonized the gospels we know today matthew mark luke and john the rest were lost destroyed or hidden in the many faces of christ the renowned religious historian philip jenkins thoroughly refutes our most basic assumptions about the lost gospels he reveals that dozens of alternative gospels not only survived the canonization process but in many cases remained influential texts within the official church whole new gospels continued to be written and accepted for a thousand years these strange stories about the life and death of jesus were freely admitted onto church premises approved for liturgical reading read by ordinary laypeople for instruction and pleasure and cited as authoritative by scholars and theologians the lost gospels spread far and wide crossing geographic and religious borders the ancient gospel of nicodemus penetrated into southern and central asia while both muslims and jews wrote and propagated gospels of their own in europe meanwhile it was not until the reformation and counter reformation that the lost gospels were effectively driven from churches but still many survived and some continue to shape christian practice and belief in our own day offering a revelatory new perspective on the formation of the biblical canon the nature of the early church and the evolution of christianity the many faces of christ restores these lost gospels to their central
