this work asks how our culture came to frown on using books for any purpose other than reading
the text explores when the coffee table book became an object of scorn and why law courts
forbade witnesses to kiss the bible

discusses how literary culture in the renaissance was fundamentally oral and studies a variety of
literary soundscapes from the schoolroom to the printing house to explore why and how sound
was meaningful to renaissance writers

presents numismatics from the ancient harbor town of dor dora in modern israel with a history that
spanned from the bronze age until the late roman era

this volume provides a wide ranging account of the development and importance of private
libraries and book ownership through the seventeenth century based upon many kinds of evidence
including examination of thousands of books and a list of over 1 300 known owners from diverse
backgrounds it considers questions of evolution contents and size and motives for book ownership
during a century when growing markets for both new and second hand books meant that books
would be found in varying numbers in the homes of all kinds of people from the humble to the
wealthy book ownership by women and by non professional households is explicitly explored
other topics include the balance of motivation between books for use or for display the relationship
between libraries and museums and cultures of collecting while presenting a wealth of information
in this field conveniently brought together this volume also advances methodologies for book
history and makes extensive use of material evidence such as bookbindings it challenges received
wisdom around priorities for studying private libraries and the terminology which is appropriate to
use in addition the list of owners detailed in the appendix make this book a work of permanent
reference alongside its value in advancing book history

reports of the death of reading are greatly exaggerated do you worry that you ve lost patience for
anything longer than a tweet if so you re not alone digital age pundits warn that as our appetite for
books dwindles so too do the virtues in which printed bound objects once trained us the willpower
to focus on a sustained argument the curiosity to look beyond the day s news the willingness to be
alone the shelves of the world s great libraries though tell a more complicated story examining the
wear and tear on the books that they contain english professor leah price finds scant evidence that
a golden age of reading ever existed from the dawn of mass literacy to the invention of the

paperback most readers already skimmed and multitasked print era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions the evidence that books are dying proves even scarcer in encounters with librarians booksellers and activists who are reinventing old ways of reading price offers fresh hope to bibliophiles and literature lovers alike winner of the phi beta kappa christian gauss award 2020

an original account drawing on both history and social science of the causes and consequences of the american revolution with america before 1787 jon elster offers the second volume of a projected trilogy that examines the emergence of constitutional politics in france and america here he explores the increasingly uneasy relations between britain and its american colonies and the social movements through which the thirteen colonies overcame their seemingly deep internal antagonisms elster documents the importance of the radical uncertainty about their opponents that characterized both british and american elites and reveals the often neglected force of enthusiasm and of emotions more generally in shaping beliefs and in motivating actions he provides the first detailed examinations of divide and rule as a strategy used on both sides of the atlantic and of the rise and fall of collective action movements among the americans elster also explains how the gradual undermining in america of the british imperial system took its toll on transatlantic relations and describes how state governments and the american confederation made crucial institutional decisions that informed and constrained the making of the constitution drawing on a wide range of historical sources and on theories of modern social science elster brings together two fields of scholarship in innovative and original ways the result is a unique synthesis that yields new insights into some of the most important events in modern history

this book provides an overview of the establishment and use of parish libraries in early modern england and includes a thematic analysis of surviving marginalia and readers marks this book is the first direct and detailed analysis of parish libraries in early modern england and uses a case study approach to the examination of foundation practices physical and intellectual accessibility the nature of the collections and the ways in which people used these libraries and read their books
