this handbook explores two guiding questions how can university community partnerships in planning education work and how can they be transformative university community partnerships often referred to as service learning or community engaged teaching and learning are traditionally based on a collaborative relationship between an academic partner and a community based partner in which students from the academic partner work within the community on a project transformational approaches to university community partnerships are approaches that develop and sustain mutually beneficial collaborations where knowledge is co created and new ways of knowing and doing are discovered this edited volume examines a variety of university community partnerships in planning education from a number of different perspectives with a focus on transformative models the authors explore broader theoretical issues including topics relating to pedagogy planning theory and curriculum along with more practical topics relating to best practices logistics institutional support outcome measures and the various forms these partnerships can take all through an array of case studies the authors which include academics professional practitioners academic practitioners and students bring an incredible depth and breadth of knowledge and experience from across the globe australia canada chile europe including germany spain slovakia and sweden india jamaica south korea and the united states

the aim of the present document is to present the author s proposals on the reform of the governance

model from a holistic and functional perspective the first task when designing a system of governance should be to identify the function that it is to fulfil which leads on to the question of exactly why universities are meant to be autonomous for the good of society universities as institutions have to guarantee that the knowledge they generate and transmit does not favour the interests of any particular group they provide a public service that must act with autonomy this autonomy must include all decisionmaking mechanisms the whole system of governance so that the public service of higher education and research can be rendered as efficiently as possible and without submitting to the influence of political economic or religious interests on the basis of the conclusions of the study university autonomy in europe ii the scorecard and the current situation of the university research and innovation system this study proposes a well defined set of governance elements that cover all the dimensions of university autonomy the study makes explicit reference to the university system in catalonia but its conclusions and argumentation are of more general applicability

occupying a space in between conventional scholarship and imaginative storytelling the university in crumbs a register of things seen and heard is an experimental work that dramatizes the everyday life of the academy consisting primarily of a series of five first person reports robert porter kerry ann porter and iain mackenzie provide the reader with a number of stories that attempt to capture some of their everyday experiences of academic life in the uk roughly between 2017 and 2022 self consciously written in a subjective and conversational register and often in dialogical form the university in crumbs is an accessible series of interrelated narratives that allow us to develop a concrete sense of the grain texture and feel for what it might be like to work in the academy at a specific point in time these stories first person reports dialogues come alive acquire their meaning force and pragmatic effect by way of a rather unique circumlocutory form there is a directedness to the everyday talk engaged in by robert kerry ann and iain that nonetheless simultaneously indirectly loops in and out of a kind of technical academic talk that provides the book its light and shade university in crumbs is an experimental work that implicitly and explicitly animates philosophy social cultural and political theory through first person experiences and in so doing breathes new life into what can often otherwise remain rather conventional and technical academic language games more than that this book dramatizes ideas and concepts in ways perhaps less burdened by the weight of canonical tradition and encourages those readers with the talent to portray their social world differently to be more licentious and less bashful in putting such talents to work

this book the first in a projected three volume definitive history traces the university's progress from territorial days to 1917 david w levy examines the people and events surrounding the school's formation and development chronicling the determined ambition of pioneers to transform a seemingly barren landscape into a place where a worthy institution of higher education could thrive the university of oklahoma was established by the territorial legislature in 1890 with that act norman became the

educational center of the future state levy captures the many factors academic political financial religious that shaped the university drawing on a great depth of research in primary documents he depicts the university's struggles to meet its goals as it confronted political interference financial uncertainty and troubles ranging from disastrous fires to populist witch hunts yet he also portrays determined teachers and optimistic students who understood the value of a college education written in an engaging style and enhanced by an array of historical photographs this volume is a testimony to the citizens who overcame formidable obstacles to build a school that satisfied their ambitions and embodied their hopes for the future

analysing the juxtaposition of two trends in universities corporatisation and environmental sustainability this book explores how they are more contradictory than compatible Hans Baer argues that this contradiction is unavoidable because of the capitalist parameters in which they operate including a commitment to on going economic growth which contributes to social inequality environmental degradation and greenhouse gas emissions drawing on archival sources and Baer's experiences in university sustainability forums the book exposes how what universities claim to do in relation to environmental sustainability compares with their research educational operational and institutional activities presenting a critique of and a radical alternative to the status quo this book is suitable for academics and students of anthropology environmental studies and higher education

volume xxi 1 of history of universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education its contributions range widely geographically chronologically and in subject matter the volume is as always a lively combination of original research and invaluable reference material
