this book provides comprehensive coverage of the issues critical to professional practice in communication sciences the text is multi contributed and each chapter is written by a leading expert in the field this is the most up to date text on the market and it provides in depth coverage of the recently updated 2005 standards of clinical competence the text is clearly organized and highly approachable for readers and it provides a number of excellent pedagogical features such as case studies tables and decision trees to help reinforce the material

politics language and culture are three of the most powerful forces affecting education today yet they have been little discussed in relation to systemic school reform the new status quo of urban schools this book looks at their effects through the eyes of teachers administrators and insider outsiders who are actually living reform at the school level in four widely different urban school systems chicago san francisco and oakland california and boston the book also creates a statistical and conceptual picture of urban education and school reform as national phenomena with deep historical roots and offers a composite case study of an urban elementary school undergoing reform the author argues that urban school reform is failing because its basic strategy is misguided and because reform thinking has consciously ignored three essential sources of knowledge about school change strategically efforts for reform have relied heavily on the widespread replication of nationally promoted exemplary programs this approach assumes that local schools lack the knowledge and will to solve their own problems and require prescriptive intervention from national models in fact the exemplary programs approach has yielded very limited success what is needed instead is the creation and long term support of unique local exemplary contexts that combine best practice approaches with local knowledge conditions and resources
