New approximately 5,000 new and revised definitions reflect the latest developments in health care, drugs, and nursing terminology. New updated illustrations visually clarify key definitions that reflect current health care practice and equipment.

depletion of fisheries due to acid rain may pose a future threat to bald eagle and osprey populations in some regions. Loss of essential habitat has affected declines in the caracara and western burrowing owl and the disappearance of the northern aplomado falcon from the southern United States. Most populations of the ferruginous hawk, marsh hawk, and prairie falcon appear stable. Habitat loss is the most critical factor in population changes.
