the united states and canada have the world s largest trading relationship and the longest shared border spanning the period from the american revolution to post 9 11 debates over shared security canada and the united states offers a current thoughtful assessment of relations between the two countries distilling a mass of detail concerning cultural economic and political developments of mutual importance over more than two centuries this survey enables readers to grasp quickly the essence of the shared experience of these two countries this edition of canada and the united states has been extensively

rewritten and updated throughout to reflect new scholarly arguments emphases and discoveries in addition there is new material on such topics as energy the environment cultural and economic integration the wars in iraq and afghanistan border security missile defense and the second administration of george w bush

the authors argue that despite a shared continent and heritage ambivalence has always characterized relations between the two countries an ambivalence stemming from differences that americans underestimate and that canadians overstate thompson and randall begin with the century in which canada was a pawn in the relations between the united states and great britain they consider the years until world war ii during which canada and the united states erected many of the bilateral institutions and mechanisms that govern their relationship in the twentieth century the authors then explore the world war and cold war alliance based on economic interest and shared anti communist that made canada part of a new american empire the years from 1960 until 1984 most merit their subtitle ambivalent allies as it was then that this continental consensus fragmented in 1984 the relationship was restored as canada s conservative government embraced the united states with an ardour that stunned a canadian body politic nurtured on the milk of anti americanism the authors consider the economic and social dimensions of the relationship from canadian responses to the increasing weight of the u s cultural presence to the archaic stereotypes through which canadians and americans understand each other they conclude that while canadians have been obsessed with the united states canada has been a matter of consuming disinterest to the united states public and to most of its leaders despite the oft repeated platitudes about a special relationship between the two countries the authors maintain that what is striking is the extent to which u s policy toward canada conforms to u s policy toward the rest of the world for its part canada s preoccupation with the united states has shaped canadian national policies any apparent contemporary trend toward consensus and convergence between the united states and canada they conclude must be viewed through the lens of two centuries of ambiguity and ambivalence

u s saudi relations have been marked by ambivalence since their inception over 50 years ago the arab israeli conflict the division between buyer and seller of oil the superpower small state dichotomy and the divergence of cultures traditions and perceptions have all contributed to the anomalies that have marked the relationship between the two countries although mutual interest has over time outweighed mutual antagonism dr long examines the major factors affecting their association economic commercial military and political as well as oil related factors and develops the thesis that each has evolved a unique internal dynamic and an existence independent of the others it is primarily in times of crisis that the factors have overlapped in the minds of decision makers saudi and american alike the author argues that a knowledge of the development of each individual element is crucial for understanding the intricacies of current u s saudi relations

whenever asked to name his most significant accomplishment as west germany s first chancellor konrad adenauer would invariably reply the alliance with the free west scholars have echoed his assessment citing the federal republic of germany s successful integration into the american led west westbindung as the key to its postwar economic and political recovery behind this simple success story however lies a much more complicated history adenauer and the cdu csu remained ambivalent about the ultimate relationship between europe germany and the united states within the west torn between visions of continental european integration based on franco german reconciliation and of an atlantic community linking europe and the anglo saxons these differences eventually erupted into a damaging public conflict between atlanticists and gaullists which colored adenauer s last years and after his retirement in 1963 led directly to the failure of his successor ludwig erhard the opening of various personal and party archives over the past few years has now made the entire adenauer era accessible for historians as one of the first efforts to use that material to re examine existing conventional wisdom about the period this book traces the roles of adenauer and the cdu csu in shaping westbindung adenauer emerges as a skilled and resourceful if also mistrustful and devious politician and as a distinctly german statesman maneuvering between allies and adversaries to shape both the western community and the german role in it leaving a legacy that still influences contemporary german american and european american relations

first published in 2001 *us allies in a changing world* explores the development of the united states alliances from the american perspective as well as from that of its most important allies britain germany the gulf states israel turkey australia japan south korea and taiwan the book considers how these relationships changed in the tumultuous international environment of the past half century assesses the situations as they existed then and explores the likely future direction of each country s link to the united states the volume is organized by regions with sections covering american perspectives europe the middle east and asia it will be a beneficial read for students and researchers of international relations and politics

the role of americans in the two world wars is well known but with a glaring exception one that reveals a little known aspect of the common history of the united states and canada by the time of the american entrance into world war i in april 1917 and world war ii in december 1941 tens of thousands of americans had already fought and died in those conflicts in the uniforms of other nations most had quietly traveled over the northern border to join the ground air and naval forces of the commonwealth nations others to france poland china and the other nations and armed forces that played a role in the continuing world conflict of the first half of the century in preceding their own nation to war they influenced the course of events in those years and though threatened with loss of citizenship were ultimately met with the acceptance of their own government this book tells the story of who these americans were why they took the actions they did their experiences in war and the effects of their presence as americans in foreign forces

first published in 1998 routledge is an imprint of taylor francis an informa company

international friendship is a distinct type of interstate relationship and that as such it can contribute to capture aspects of international politics that have long remained unattended this book offers a framework for analyzing friendship in international politics by presenting a variety of conceptual approaches and empirical cases

this text examines the origins organic political make up and direction of turkish foreign policy since the cold war using four case studies the author contends that since 1989 domestic factors have determined foreign policy

in 1994 two political events occurred that would have been inconceivable just five years before the north american free trade agreement nafta was launched and republicans took control of the u s congress for the first time in 40 years nafta aimed to bind the three north american economies after more than a century in which mexico and canada had struggled to keep their distance from the united states ironically at the very moment that canada and mexico risked a closer embrace a new inward looking u s congress took office less sensitive to neighbors or international obligations concerned mexicans and canadians asked was it possible to advance nafta s goals if the u s congress stepped on the brakes this book looks at the nafta integration process by focusing on the u s congress more independent and influential than the canadian parliament or mexican legislature the u s congress seeks to shape the river banks within which north american integration runs its course but often it just dams the river the book presents the work of scholars from mexico canada and the united states who propose changes in congressional policymaking in order to facilitate a smoother and deeper process of integration within north america the chapter authors are i m destler neil nevitte kim richard nossal miguel basañez norman j ornstein and george w grayson

shatters the conventional belief that american foreign policy was borne out of a reaction to pearl harbor revealing instead a rich history of debates over the direction of american international relations many of which persist to this day

for the past half century the united states japan and south korea have maintained a three cornered alliance to guarantee peace in northeast asia u s japanese security relations currently thrive however conflicting perceptions in seoul and washington of kim jong ils north korean regime and how to deal with it have generated deep concerns about the future of the u s korean alliance

in the turbulent years before world war ii u s strategic planners struggled with the question of canadian security franklin roosevelt took a unique interest in america s northern neighbor and persistently encouraged canada to do more to ensure its own defense especially through alliance with the u s this aspect of foreign policy resulted in a

delicate balancing act between u s officials who sought to downplay the strategic importance of canada and canadian leaders who saw american overtures as a threat to canadian sovereignty the first chapter discusses roosevelt s early efforts between 1933 and 1937 to increase canadian interest in north american defense the second follows events up to the outbreak of war although canada had been seen as part of the rival british empire canada now became a natural ally in hemispheric security efforts roosevelt s dealings with canadian prime minister w l m king who would be branded a puppet for these interactions and the evolution of continental defense efforts are discussed in the third chapter the fourth chapter chronicles the wartime struggles of two new allies as roosevelt became more concerned with europe and the coming soviet threat the final chapter further explains the declining interest in canada as world war ii becomes the focus of american interests

a comprehensive and authoritative new account of the military history of the first world war

the twentieth century witnessed an unprecedented growth of research and publication on the history of britain s empire the commonwealth and british expansion overseas historical work by area specialists has transformed the state of knowledge concerning colonial north america india the caribbean sub saharan africa south and south east asia the pacific and australasia much has been written about britain s interests and presence in areas and societies never formally subjected to british rule such as latin america and the middle and far east most recently a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on britain itself has produced a rapidly growing historiography publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests britain s overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened following the recent oxford history of the british empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible

When people should go to the ebook stores, search creation by shop, shelf by shelf, it is essentially problematic. This is why we give the ebook compilations in this website.
