- 3 How do I determine the correct wire gauge for my circuit The wire gauge depends on the amperage of the circuit and the length of the wire run Consult the CEC or a qualified electrician for assistance
- 4 What should I do if a circuit breaker keeps tripping A tripping circuit breaker indicates an overload or short circuit Turn off all appliances on that circuit and identify the cause of the overload If you cannot find the cause consult a qualified electrician
- 5 Can I use aluminum wiring in my home Aluminum wiring was used in some homes in the past but it's generally not recommended for new installations due to its higher resistance and increased risk of fire hazards If you have aluminum wiring consider having it replaced by a qualified electrician
