- 1 Where can I find a complete list of diamonds graded by Richard Carter Unfortunately no such centralized list exists

Accessing this information requires working with experienced diamond dealers or using GIA's database with specific diamond details. 2 Is a Carter-graded diamond automatically more valuable? Not necessarily. While it adds prestige, the overall quality of the diamond assessed by contemporary standards determines its actual value. The Carter factor may command a premium, but it shouldn't be the sole determinant. 3 How can I verify the authenticity of a GIA report claiming to be from Richard Carter? Contact GIA directly using the report number. They can verify the reports' authenticity and confirm the grading gemologist. 4 What are the key differences between Carter's grading and modern GIA grading? Grading standards and techniques have evolved. While Carter's grading was extremely rigorous for his time, modern methods might offer more precise measurements and analysis. Direct comparison of the report with current standards is essential. 5 Are there any other renowned GIA graders whose reports are similarly sought after? Yes, numerous other GIA gemologists have earned reputations for their expertise. However, Richard Carter's name remains particularly associated with high-quality grading and historical significance within the diamond industry. Researching the reputations of individual graders can add valuable insights to diamond evaluation. 4
