Ratzinger, one of the key persons responsible for the compilation of the Catechism of the Catholic Church, offers new insights on the catechetical character and biblical foundation of the worldwide bestselling catechism that has had such a positive response from ordinary Catholics across the globe. But he acknowledges that the response of many theologians and professional religionists has been negative toward the catechism. He says that if theologians don't want to be shut out of this worldwide development of *sensus fidei* and lose touch with the common Catholic, they will have to engage the catechism positively. The main purpose of this book is to offer an invitation to this changed approach to the catechism. He wants people to see as he shows here how the catechism is an excellent teaching tool that responds to man's deepest questions about the meaning of

life how to live a good life and how to attain happiness in this life and in eternal life he shows how the catechism affirms that man's happiness is love and that the essence of true love has been manifested in the person of Jesus Christ learn more about Pope Benedict visit the

foreword by Cardinal Christoph Schoenborn the theme of this book is that the catechism of the Catholic Church perhaps the most important work on catechesis since the apostolic age offers not only a new definitive account for our times of the full teaching of the Catholic faith but also that it is a superbly crafted work from which to learn and to teach the faith this book reveals the pedagogy embedded in the catechism showing every teacher parent catechist or student how to discover the key principles that enable one to learn from and teach from the catechism the compendium of the catechism of the Catholic Church speaks of the wisdom of the presentation of the catechism and of the depth of its spirituality these points have rarely been explained in any sustained way and have never before been systematically treated the unique point about this book is that it focuses on these points rather than a simple explanation of the content of the catechism this book offers a pedagogical approach to the catechism for handing on the faith of the Catholic Church in any setting whether home school and parish it offers perennially valid teaching points drawn from a perennial text and an explanation of the pedagogy of God which underpins all authentic teaching methods in the Church in this way the book offers a twelve step path to recovery out of unhealthy catechetical addictions and obsessions which have bedeviled the catechetical world it is unique in its origin emerging from a catechetical friendship encouraged by Cardinal Schönborn between three institutions working in an authentic Catholic catechetical tradition the three authors display a deep trust and love for the words of the catechism of the Catholic Church words that hold a rich heritage and can be pondered lovingly and searchingly since they are for our good for everyone's good
