each volume in the 7 volume series the world of science education reviews research
 in a key region of the world these regions include north america south and latin
 america asia australia and new zealand europe and israel north africa and the middle
 east and sub saharan africa the focus of this handbook is on australasia a region
 loosely recognized as that which includes australia and new zealand plus nearby
 pacific nations such as papua new guinea solomon islands fiji tonga vanuatu and the
 samoan islands science education and the scholarship that most closely supports this
 program the reviews of the research situate what has been accomplished within a
 given field in australasian rather than international context the purpose therefore is to
 articulate and exhibit regional networks and trends that produced specific forms of
 science education the thrust lies in identifying the roots of research programs and
 sketching trajectories focusing the changing façade of problems and solutions within
 regional contexts the approach allows readers review what has been done and
 accomplished what is missing and what might be done next
