how scientific discoveries and practice were integrated into nineteenth century french culture and thought
winner of the sarton medal for lifetime scholarly achievement of the history of science society there has been a tendency to view science in nineteenth century france as the exclusive territory of the nation's leading academic centers and

the powerful paris based administrators who controlled them ministries and the great savants and institutions of the capital seem to have defined the field while historians have ignored or glossed over traditions on the periphery of science in the savant and the state robert fox charts new historiographical territory by synthesizing the practices and thought of state sanctioned scientists and those of independent communities of savants and commentators with very different political religious and cultural priorities fox provides a comprehensive history of the public face of french science from the bourbon restoration to the outbreak of the great war following the enlightenment many different interests competed to define the role of science and technology in french society political and religious conservatives tended to blame the scientific community for upsetting traditional values and implicitly delivering france into the hands of revolutionary extremists and napoleonic bureaucrats scientists for their part embraced the belief that observation and experimentation offered the surest way to the knowledge and wisdom on which the welfare of society depended this debate fox argues became a contest for the hearts and minds of the french citizenry

the book provides a systematic evaluation of the role played by business in the development of the modern welfare state when and why have employers supported the development of institutions of social insurance that provide benefits to workers for various employment related risks what factors explain the variation in the social policy preferences of employers what is the relative importance of business and labor based organization in the negotiation of a new social policy this book studies these critical questions by examining the role played by german and french producers in eight social policy reforms spanning nearly a century of social policy development the analysis demonstrates that major social policies were adopted by cross class alliances comprising labor based organizations and key sectors of the business community
