in this book richard a posner examines how judges go about making difficult decisions posner argues that they cannot rely on either logic or science but must fall back on a grab bag of informal methods of reasoning that owe less than one might think to legal training and experience adapted from amazon com summary

ambitious legal thinkers have become mesmerized by moral philosophy believing that great figures in the philosophical tradition hold the keys to understanding and improving law and justice and even to resolving the most contentious issues of constitutional law they are wrong contends richard posner in this book posner characterizes the current preoccupation with moral and constitutional theory as the latest form of legal mystification an evasion of the real need of american law which is for a greater understanding of the social economic and political facts out of which great legal controversies arise in pursuit of that understanding posner advocates a rebuilding of the law on the pragmatic basis of open minded and systematic empirical inquiry and the rejection of cant and nostalgia the true professionalism foreseen by oliver wendell holmes a century ago a bracing book that pulls no punches and leaves no pieties unpunctured or sacred cows unkicked the problematics of moral and legal theory offers a sweeping tour of the current scene in legal studies and a hopeful prospect for its future

the third in a series of three volumes on contemporary legal theory this volume deals with four topics 1 the role of legal theory in the legal curriculum 2 the teaching of legal theory 3 the relationship of legal theory to legal scholarship and 4 the relationship of legal theory to comparative law the focus of the first two topics is on the common law world where the debates over the aims and proper place of legal theory in the study of law have traversed a good deal of ground since john

austin s 1828 lecture the uses and the study of jurisprudence these first two parts offer a selection of the most important papers including surveys as well as pedagogical viewpoints and particular course descriptions from analytical critical feminist law and literature and global perspectives the last three decades have seen just as many changes for legal scholarship and comparative law these changes such as the rise of empirical legal scholarship have often attracted the attention of legal theorists within comparative law the last thirty years have witnessed intense methodological reflection within the discipline the results of these reflections are themselves properly recognised as legal theoretical contributions the volume collects the key papers including those by neil maccormick mark van hoecke andrew halpin william ewald and geoffrey samuel

this book discusses legal education in multicultural classes comparative law education is now widespread throughout the world and there is a growing trend in developed countries toward teaching global law providing theoretical answers on how to describe each legal culture and tradition side by side it also explores educational methodological options to address these aspects without causing offence or provoking tension within a multicultural student community the book examines nine countries on three continents bringing together academic views and educational insights from ten scholars in the field of comparative law

this excellent collection of topically organized articles with chapter introductions cases for further reflection and end of chapter glossaries provides an accessible yet philosophically honest and balanced introduction to the philosophy of law

the review of the dispute settlement system of the wto was written into the results of the uruguay round establishing the organization the planned review after four years failed to reach a conclusion and the review process was extended several times to be finally taken up as a separate part of the doha round

global intersectionality and contemporary human rights argues for an expansive definition of human rights one that encompasses the harm caused by multiple intersecting forms of subordination intersectionality theory posits that aspects of identity such as race and gender are mutually constitutive and intersect to create unique experiences of discrimination and subordination perpetrators of sexual violence in armed conflict of example often target women based on both gender and ethnicity human rights remedies that fail to capture the intersectional nature of human rights violations do not offer comprehensive redress to victims this title explores the influence of intersectionality theory on human rights in the modern

era and traces the evolution of intersectionality as a theoretical framework in the united states and around the world it draws upon feminist theory and human rights jurisprudence to argue that scholars and activists have under utilized intersectionality theory in the global discourse of human rights as the central intergovernmental organization charged with the protection of human rights the united nations has been slow to embrace the insights gained from intersectionality theory this work argues that the united nations and other human rights organizations must more actively embrace intersectionality as an analytical framework in order to fully address the complexity of human rights violations around the world
