with two distinct objectives this text s approach to managerial economics takes models from recent economics research and applies the research to the internal structure of a firm after teaching basic applied economics the authors look inside the firm and apply this analysis to management

decision making authors brickley smith and zimmerman contend that organizational architecture consists of three aspects of corporate organization the assignment of decision rights within the company methods of rewarding individuals the structure of systems to evaluate the performance of both individuals and business units these three components can be likened to a stool with three legs if one of the legs is shorter the stool is out of balance these three elements must be in balance in the organization as well

this text uses the theory of the firm as the unifying theme to examine the managerial decision process it introduces a global view into managerial economics to reflect the internationalization of tastes production and distribution in the globalizing world and goes on to introduce many topics and managerial tools into the study of managerial economics such as firm architecture strategic behaviour business ethics electronic commerce risk management international economies of scale the virtual corporation re engineering benchmarking the learning organization and the digital factory the book shows how managerial decisions are actually made with relevant real world case applications and integrative case studies

this handbook explores and critically examines current research in economics and marketing science on key issues in retailing and distribution providing a rich perspective for the discussion of public policy contributions from several disciplines and continents range from the history of chains and the impact of multinational retailers on international trade patterns to us merger policy in the retail context the rise of the internet and consumer to consumer sales the chapters address methodological issues such as the structural estimation of entry games between retailers productivity measurement when both inputs and output are not fully observable and demand estimation with variable assortment policy issues explored include mergers zoning and the regulation of buyer power while other chapters address some of the recent exciting developments in technology retail formats and data availability the book goes on to study the changes in online retailing and big data and to examine competition in specific retail sectors including gasoline stations automobile dealerships supermarkets and big box retail this state of the art handbook is an essential reference for students and academics of economics and marketing science and offers an outsider s perspective to specialists in operations research data analytics geography and sociology
