rethinking democratic innovation takes a fresh look at diverging visions of improving democratic governance and asks whether these existing tensions could be made productive could different visions of democratic revitalisation complement and correct each other in ways that are good for democracy is it conceivable that combined approaches address a larger part of the democratic challenge while isolated approaches centralizing deliberative or plebiscitary democracy are confined to more limited areas of concern this book ultimately provides an affirmative answer outlining the scope for hybrid democratic innovations that thrive on exploiting not eliminating tensions between diverging visions of improved democracy supplementing democratic theory
