an international quarterly devoted to intellectual history

contemporary research in personality social psychology and sociology has renewed an interest in the self this volume argues that the self may consist of multiple selves any of which may interact with each other in a dialogical fashion the self is presented as a non unitary embodiment that transcends the limits of individualism and rationalism beginning with philosophical discussion of the self this volume

discusses the decentralization of the self in narrative psychology the retreat of the omniscient narrator in literary sciences the genesis of self knowledge in children and the concept of modern society as a multiplicity of collective voices

each volume in this series provides an introduction tracing the subject author s critical reputation trends in interpretation developments in textual and biographical scholarship and reprints of selected essays and reviews beginning with the author s contemporaries and continuing through to current scholarship many volumes also feature new essays by leading scholars and critics specially commissioned for the series
