i loved the story and appreciate you allowing me to pre read it this story is awesome and culturally diverse it brings an acceptance to blindness and shyness as well as expressing that no one can prevent anyone else from dreaming it has a strong family bond across generations and accepts differences it also recognizes the arts and how important they are as band chorus dance and strings are always at risk of being removed from school curriculum jodi pankowski principal independent hill and pace for the child in each of us edward gabriele author poet teacher children are fascinating stories written about them or for them are equally so in the pages to follow you will enter into an amazing world george brummell s work the mole and the violin will stoke your imagination and fill you with wonder the tale of mikey the mole and his friendship with emma the violinist is more than a story it is an experience and a journey but an experience of what a journey where these questions require a bit of reflection we adults treasure our experiences with children and the stories for and about them both are precious we hear our children laugh and it moves us to laugh with equal energy we hear them cry

or we hear horrific tragedies such as the one that befell the children at sandy hook elementary school and we are overwhelmed with sadness we walk into our children s bedrooms and see them sleeping and we watch with a tenderness that cannot be captured in simple words when we encounter little ones in life we treasure in them all that we have been and wish still to be in them we see our own dreams hopes fears loves joys our very selves in the mole and the violin we have an exquisite story where a seemingly insignificant animal from the dark corridors of the earth burrows his way daringly up to the surface he risks to experience something different when mikey unearths himself he hears something so beautiful that he cannot help but follow its path even though it means risking a possible encounter with real danger he risks and runs headlong into a creature making the most beautiful sounds he has ever heard suddenly he knows the experience of desire he wants to be caught up in the beauty of what he hears and this leads him to befriend the human girl emma she cannot believe he talks he cannot believe she cares his search and her amazement bring them together as friends and suddenly they come to teach each other things utterly new and wondrous like all other children s stories the mole and the violin is just as much for adults the pages you are about to turn are more than just a story they are the doorway into an experience an experience of who we are and all we wish to be as humans as family members as friends as citizens of this wonderful planet as the dreaming children we never cease to be george brummell has given us a gift far greater than just a story like all children s literature he has given us a story that we do not just read to ourselves or to our children he has given us a living pathway on which we journey with our children toward that moment we all crave when our dreams might become waking realities as you burrow through the following pages listen carefully you too just might hear the sound of something musically wonderful but be careful it just might make you want to burrow open your heart to a stranger sing to a melody our world too often does not hear and learn to love enough to make a new music that sets all the world a dancing

horace the mole and friends is a fable told in rich descriptive tones that will trigger laughter tears and hope it is a touching story about a young boy who struggles to survive an abusive alcoholic dad and a host of medical problems to become a whole person touched by a miracle a hero in his own regard for his stance to do what is right in his heart stand up for his mole friend

a wonderful story about a mole who goes on an adventure making new friends by being kind and helpful

mole's friends don't think much of his mound until a storm destroys their own homes and they realize it's the perfect shelter sometimes the best treasures are right beneath our feet scoop wiggle wiggle went the mole working on his great grand hole mole is on a mission to build an extraordinary shelter for him and his friends bird beaver and bee are jealous they find it insulting that anyone would choose to write a story about mole's mound especially when they could be writing about bird's impressive nest beaver's incredible lodge or bee's intricate hive one by one they rush to impress the audience with their own creations failing to notice a storm that is on its way when it finally arrives bird beaver and bee's houses are destroyed and they are forced to seek shelter inside mole's mound it becomes clear that this seemingly ordinary mound is much more extraordinary on the inside a brilliantly funny picture book with showcasing the importance of humility and the value of empathy
