in the last fifty years the investigation of maritime archaeological sites in the sea in the coastal zone and in their interconnecting locales has emerged as one of archaeology s most dynamic and fast developing fields no longer a niche interest maritime archaeology is recognised as having central relevance in the integrated study of the human past within maritime archaeology the study of watercraft has been understandably prominent and yet their potential is far from exhausted in this book jon adams evaluates key episodes of technical change in the ways that ships were conceived designed built used and disposed of as technological puzzles they have long confounded explanation but when viewed in the context of the societies in which they were created mysteries begin to dissolve shipbuilding is social practice and as one of the most complex artefacts made changes in their technology provide a lens through which to view the ideologies strategies and agency of social change adams argues that the harnessing of shipbuilding was one of the ways in which medieval society became modern and while the primary case studies are historical he also demonstrates that the relationships between ships and society have key implications for our understanding of prehistory in which seafaring and communication had similarly profound effects on the tide of human affairs

in 1972 renowned canadian philosopher and theologian bernard lonergan published method in theology now following the

fiftieth anniversary of his landmark work the wisdom of order presents the next step in advancing the thought of this significant religious theorist in addition to the previously compiled collected works of bernard lonergan this book aims to provide an appreciation and exploration of method in theology it analyses the first five chapters of the work with commentaries to help readers traverse lonergan s thought more effectively and deeply john d dadosky presents compelling exposition and observations to assist readers the book explores questions related to the philosophical status of beauty which lonergan does not address in addition to lonergan s three stages of meaning the book also seeks to develop a fourth stage that pertains to the turn to alterity emphasizing positive relations with other cultures and religions as a result the wisdom of order critically analyses an important groundbreaking work while also highlighting areas for further development

a neutral reconsideration of the physical structure of the west portals of chartres and of the theological basis of its iconography in holy writ and effective patristic dogma

medieval christians knew the past primarily through what they saw and heard history was reenacted every year in ritual observances particular to each place and region and rooted in the legends of local saints this richly illustrated book explores the layers of history found in the cult of the virgin of chartres as it developed in the eleventh and twelfth centuries focusing on the major relic of chartres cathedral the virgin s gown and the feast of mary s nativity margot fassler employs a wide range of historical evidence including local histories letters obituaries chants liturgical sources and reports of miracles leading to a detailed reading of the cathedral s west façade this interdisciplinary volume will prove invaluable to historians who work in religion politics music and art but will also serve as a guidebook for all interested in the history of chartres cathedral
