*this book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century england bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards the chief reward was the benefice often granted for life episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service this tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion michael burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century english diocesan administration in decades his research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts*

*concepts and cases in nursing ethics is a case based exploration of the core principles of health care ethics applied to nursing the book is a collaboration between philosopher ethicist michael yeo and nurse ethicist and educators anne moorhouse pamela khan and patricia rodney it thus combines philosophical and ethical analysis with extensive knowledge and experience in nursing and health care the book is organized around six main concepts in health care ethics beneficence autonomy truthfulness confidentiality justice and integrity a chapter is devoted to the elucidation of each of these concepts in each chapter historical background and conceptual analysis are supplemented by case studies that exemplify issues and show how the concept applies in health care and nursing practice in this new edition the conceptual analysis throughout has been updated and reworked in view of changes in the health care system in addition there is a new chapter specifically devoted to recent developments affecting nursing and other health professions previous case studies have been modified and new ones added to address current and emerging issues although the text focuses mainly on the social and political situation of nursing the analysis has*

relevance also for medicine and the allied health professions and indeed for anyone working in the health system
