publishing the fifteenth edition of this text bespeaks an exceptionally long record of successful textbook writing we are appreciative of the loyalty and support the book has received over the years and we are mindful of our obligation to justify each new edition we begin our approach to each new edition with an

intensive author retreat in which we ask ourselves the deep questions that we must answer before we can move forward what justifies yet another edition what is changing in the world not only of chemistry but with respect to science education and the qualities of the students we serve how can we help your students not only learn the principles of chemistry but also become critical thinkers who can think more like chemists the answers lie only partly in the changing face of chemistry itself the introduction of many new technologies has changed the landscape in the teaching of sciences at all levels the use of online resources in accessing information and presenting learning materials has markedly changed the role of the textbook as one element among many tools for student learning our challenge as authors is to maintain the text as the primary source of chemical knowledge and practice while at the same time integrating it with the new avenues for learning made possible by technology this book incorporates a number of technologies to improve pedagogy including use of computer based classroom tools such as mastering chemistry which is continually evolving to provide more effective means of testing and evaluating student performance while giving the student immediate and helpful feedback video feedback for a select number of exam prep questions is also available in mastering chemistry which is new to this edition

the book comprises the proceedings of the international conference on academic libraries ical 2023 in the context of developing a vision for the next generation of libraries which will contribute to nation building and give a competitive edge to the country in becoming a knowledge economy the book provides a quality reading and exchange of ideas to all stakeholders to deliberate dwell and brainstorm upon the diverse and enormous role that academic libraries may play in enhancing the higher education landscape in developed and developing countries with particular reference to india by 2030 the book includes literature and opportunities to identify the strengths and gaps in the academic library system and to suggest new management models mechanisms policies and national and international programs for reshaping academic libraries into next generation libraries for higher education

this is a timely and comprehensive guide to one of the most volatile misunderstood and potentially dangerous states in the world and one of great strategic importance to u s interests in asia featuring a detailed who's who section it covers politics the economy the military education and culture and provides numerous vital statistical data

note this edition features the exact same content as the traditional text in a convenient three hole punched loose leaf version books a la carte also offer a great value for your students this format costs 35 less than a new textbook before you purchase check with your instructor or review your course syllabus to ensure that you select the correct isbn several versions of pearson s mylab mastering products exist for each title including customized versions for individual schools and registrations are not transferable in addition you may need a courseid provided by your instructor to register for and use pearson s mylab mastering products xxxxxxxxxxxxxxxxxxxx unrivaled problems notable scientific accuracy and currency and remarkable clarity have made chemistry the central science the leading general chemistry text for more than a decade trusted innovative and calibrated the text increases conceptual understanding and student success in general chemistry by building on the expertise of the dynamic author team of leading researchers and award winning professors the new thirteenth edition builds on the twelfth edition s major revision in which every word and piece of art was scrutinized by all the authors to increase its effectiveness placing a greater emphasis on research this edition is more tightly integrated with masteringchemistry the leading online homework tutorial and assessment program resulting in an unparalleled teaching and learning package that personalizes learning and coaches students toward understanding and mastery of tough chemistry topics this program presents a better teaching and learning experience for you and your students it provides superior support beyond the classroom with masteringchemistry students benefit from personalized interactive learning through masteringchemistry s self paced tutorials that guide them through the text s most challenging topics provide immediate specific feedback and keep students engaged and on track enhanced learning from a dynamic author team of leading researchers and award winning professors each member of this well respected author team brings their expertise in a wide range of areas to the pages of this popular text all authors have been active researchers and have taught general chemistry for many years improved conceptual understanding through stepped up relevant pedagogy students get numerous opportunities to test their knowledge through give it some thought gist exercises go figure questions and a closer look essays now integrated with clicker questions and in masteringchemistry invaluable aids that ensure problem solving success by using a consistent process a unique analyze plan solve check format dual column problem solving approach in certain areas a new practice exercise following each worked example and the strategies in chemistry feature students are placed on the right path from the very start to excel at problem solving and comprehension clarity through visualization from a variety of perspectives including macroscopic microscopic and symbolic included are visualizing concepts exercises with models

graphs and other visual materials sample exercises with molecular illustrations and conceptual questions in the end of chapter questions
