the book establishes the importance of environmental education by tracing its history and the developments that have taken place subsequently to date it provides basic understanding about environmental education as well as valuable suggestions for its effective incorporation in the school curriculum the strength of the book lies in its content as all major areas of environmental education have been addressed such as school curriculum professional development and policies especially in the context of india thus making it a unique and go to resource for all stakeholders working in the field of

environmental education the well balanced content will help readers appreciate the nature of environmental education and its distinctiveness from other subject disciplines as well as environmental studies and environmental science substantiated with several examples and illustrations what is striking about the book is its proposed road map which is critical for successful implementation of environmental education in india with the launch of the national education policy 2020 and the subsequent introduction of new curriculum frameworks the book will be useful to students preservice teachers and teacher educators it will also be of much value to in service teachers practitioners in different settings teachers policy makers curriculum developers and researchers in the field of environmental education

this book explores how the transnational education for sustainable development esd policy is being translated into formal school education in india stephanie ledér investigates the esd s transformative potential for pedagogic practice and builds a set of principles for how the global objectives of the esd can be interpreted in diverse socio cultural contexts her approach for transformative pedagogic practice emphasizes the promotion of a critical consciousness through argumentation skills using the case of water conflicts in geography education in india the book reveals the contradictions between esd objectives and curricula syllabi textbooks and classroom teaching at secondary schools in pune maharashtra ledér s approach demonstrates how principles of schooling can be altered towards learner centered problem posing and network thinking teaching approaches to empower students towards reflective decision making on the sustainable use of natural resources

this book portrays india as a representative of post colonial democratic republic states with a parliamentary form of federal structured government and analyzes the critical challenges faced by such states in generating broadly shared economic well being and quality of life the reader is shown how creating and utilizing physical human financial and social assets under the aegis of public policies help achieving the sustainable development goals sdgs to provide a global framework to move toward a more equitable

peaceful resilient and prosperous society by 2030 it not only addresses how the state's capacity has long been linked to the available economic resources but also unfolds how the political system thus evolves to crucially determine the capacity of the state to implement its programs the chapters of this book are particularly focused on judging the state's capacity amid the neo liberal ascendancy that has been triggered by the opening up of both the domestic and external economy significantly initiated since 1991 and popularly known as the economic reforms in india examined here is the potency of the public policies of the country in fulfilling the sustainable development agendas the specificity of which places the state at the heart of its execution unlike many other versions of development that would be executed in parallel with or without states action this work book has three principal foci facets within the broad swath of discussions covered by different chapters 1 it critically examines how successful remains the public policies in mobilizing the population is mobilized to the next orbit of income employment education and health consequent to amid the existing considerable magnitude of social and economic inequalities while achieving equity has always been the declared agenda in the post reform public policy frameworks 2 it traces the rationality of the transformation of the public policies and welfare strategies during the post reform period in terms of motives goals and coverage to achieve the sdgs and 3 it reviews specific post reform policies in terms of their potency to stimulate the system in addressing sustainable development and upholding the state's dominant and structuring intervention to resolve the existing inequalities and ensure that society develops amidst a harmonious world reconciled with nature

this book deals primarily with the national education policy 2020 of india in the book an attempt has been made to highlight the provisions of the latest national education policy in comparison with some best education systems in the world such as the usa the uk and finland the comparative analysis with these countries has made this book unique and interesting to read the examination of elementary as well as secondary education of japan and the best practices of finnish schools and government have opened up a new door of knowledge to the readers this book has been written mainly for students teachers

guardians and other stakeholders who are actually going to benefit from the national education policy 2020 india s future growth and genuine sustainable development can only be achieved through the proper implementation of the nep 2020

this book highlights the significance of an interdisciplinary approach to understanding children and childhoods in the indian context while it is recognised that multiple kinds of childhoods exist in india policy and practice approaches to working with children are still based on a singular model of the ideal child rooted in certain western traditions the book challenges readers to go beyond the acknowledgement of differences to evolving alternate models to this conception of children and childhoods bringing together well known scholars from history politics sociology child development paediatrics and education the volume represents four major themes the history and politics of childhoods deconstructing childhoods by analysing their representations in art mythology and culture in india selected facets of childhoods as constructed through education and schooling and understanding issues related to law policy and practice as they pertain to children and childhoods this important book will be useful to scholars and researchers of education especially those working in the domains of child development sociology of education educational psychology public policy and south asian studies

it is evident that urban education has become the central focus of educators at the present time in the u s for example almost one third of all school age children attend schools in large urban school districts it is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic what has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea rather we have discovered that the local context shapes in critically important ways what will be effective at the school level the universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the international handbook of urban education an important focus of the international handbook of urban education will be the

interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region an important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education

this inspiring volume presents unique insights from leading international scholars activists educators and thought leaders on the contemporary relevance of gandhi s ideas and actions the essays here reveal that for gandhi legitimate coercion by the state in certain cases was compatible with ahimsa a balance between spiritual and material values was essential for a true civilization and swaraj anchored in self discipline and self restraint was an imperative for sustainable ways of life the essays also illustrate how gandhi has been instructive for ethical business leadership socially responsible investing and entrepreneurship transformative education and caring for nature this book compellingly reaffirms the continuing significance of gandhi s wisdom for a just and peaceful world

the book presents key perspectives on teaching and learning science in india it offers adaptive expertise to teachers and educators through a pedagogic content knowledge pck approach using cases and episodes from indian science classrooms to contextualise ideas and practices the volume discusses the nature of science and aspects of assessments and evaluations for both process skills and conceptual understanding of the subject it examines the significance of science education at school level and focuses on meaningful learning and development of scientific and technological aptitude the chapters deal with topics from physics chemistry and biology at the middle and secondary school levels and are designed to equip student teachers with theoretical and practical knowledge abilities about science science learning and the abilities to teach these topics along with teaching the book draws extensively from research on science education and teacher education and shifts away from knowledge transmission to the active process of constructivist teaching learning practices the authors use illustrative examples to highlight flexible planning for inclusive classrooms based on studies on cognitive and developmental psychology pedagogical content knowledge of science socio cultural

approaches to learning science and the history and philosophy of science the book promotes an understanding of science characterized by empirical criteria logical arguments and sceptical reviews with its accessible style examples exercises and additional references it will be useful for students and teachers of science science educators bed and med programmes for education secondary and higher secondary school teachers curriculum designers and developers of science it will interest research institutes non governmental organisations professionals and public and private sector bodies involved in science outreach science education and teaching and learning practices

this book highlights the strategies and approaches to the practice of equitable and inclusive school education elaborating the role of various stakeholders such as teachers special educators parents peers teacher educators educational administrators and ed tech firms the aim of this book is to create an understanding of equitable and inclusive school education which is not restricted to children with disabilities but also includes children with different learning needs as well as those from socially and economically disadvantaged sections of society the focus is on presenting practical strategies that are grounded in theory and supported with research the significance of screening at the classroom level development of need based accessible learning teaching materials customizing the pedagogy practices for inclusive classrooms need based examination accommodations leveraging the potential of information and communication technology ict to elicit the participation of all and collaborative efforts toward realizing the optimum potential of each learner are a few basic ideas illustrated in the book with examples the volume also discusses recent national and international policies for equitable and inclusive education recommending courses of action for effective implementation of the existing provisions by teachers and educators the book will be useful to students researchers teacher educators special educators special education teacher educators pre service teachers and parents it will also be an invaluable companion to in service teachers policymakers and educational administrators curriculum developers and ngos working in the field of inclusive education
