product description during world war ii nazi doctor josef mengele subjected some 3
000 twins to medical experiments of unspeakable horror only 160 survived in this
remarkable narrative the life of auschwitz s angel of death is told in counterpoint to
the lives of the survivors who until now have kept silent about their heinous death
camp ordeals

fulfills some or all of the high school national curriculum standards for world history u s history social studies and english

this book presents a selection of the newest research on themes amplified by the sixth annual beyond camps and forced labour conference on the post holocaust period including displaced persons reception and resettlement exiles and refugees trials and justice reparation and restitution and memory and testimony the chapters highlight new transnational approaches and findings based on underused and newly opened archives including compensation files of the british government on historical actors often on the periphery within english language historiography including romanian and hungarian survivors and new approaches such as the spatial history of drancy as well as geographies that have undergone less scrutiny for example tehran chile mexico and cyprus this volume represents the vibrant and varied state of research on the aftermath of the holocaust

a gripping sober and meticulous david margolick wall street journal biography of the infamous nazi doctor from a former justice department official tasked with uncovering his fate perhaps the most notorious war criminal of all time josef mengele was the embodiment of bloodless efficiency and passionate devotion to a grotesque worldview aided by the role he has assumed in works of popular culture mengele has come to symbolize the holocaust itself as well as the failure of justice that allowed countless nazi murderers and their accomplices to escape justice whether as the demonic doctor who directed mass killings or the elusive fugitive who escaped capture mengele has loomed so large that even with conclusive proof many refused to believe that he had died as chief of investigative research at the justice department s office of special investigations in the 1980s david g marwell worked on the mengele case interviewing his victims visiting the scenes of his crimes and ultimately holding his bones in his hands drawing on his own experience as well as new scholarship and sources marwell examines in scrupulous detail mengele s life and career he chronicles mengele s university studies which led to two phds and a promising career as a scientist his wartime service both in frontline combat and at auschwitz where his selections sent innumerable innocents to their deaths and his scientific pursuits including his studies of twins and eye color traumatized or killed countless more and his postwar flight from europe and refuge in south america mengele describes the international search for the nazi doctor in 1985 that ended in a cemetery in são paulo brazil and the dogged forensic investigation that produced overwhelming evidence that mengele had died but failed to convince those who arguably most wanted him dead this is the riveting story of science without limits escape without freedom and resolution without justice

product description during world war ii nazi doctor josef mengele subjected some 3 000 twins to medical experiments of unspeakable horror only 160 survived in this remarkable narrative the life of auschwitz s angel of death is told in counterpoint to the lives of the survivors who until now have kept silent about their heinous death camp ordeals

a jewish boy s coming of age in the shadow of the holocaust alexander 16 of windsor ontario is tormented by stories of death camps recounted by his family and desperately tries to find meaning

in this compelling narrative alessandra piontelli explores the different roles that twins play in societies around the world in her travels throughout africa asia south america and the pacific rim piontelli has observed how some cultures deify twins while other cultures attribute evil spirits to them and others outright destroy all multiple siblings twins in the world mixes anthropology ethnography and religious studies to show the most critical aspect of comparative world culture how a society cares for its young through the lens of twins who seem to hold a special place in all cultures
