this book presents a study of cooperatives as a two layer entrepreneurial model and analyzes cooperative enterprises above all it explores how inducements from the firm and contributions from its members in their respective roles are aligned and seeks to answer the question of what this means for managing each cooperative as a firm as well as a group the book is divided into three parts the first of which begins with an analysis of specific aspects of cooperative enterprises with a focus on the added value of cooperation the weighing of interests and a behavioral perspective on the imminent communities and their goals in a structured approach the book examines the various facets of relationships in cooperatives on a transactional financial and control level further a case study on the dutch cooperative rabobank illustrates what happens when members fail in turn part two concentrates on integrating the lessons learned with the existing economic literature on cooperatives so as to contribute to a theory of cooperative management finally the book links the theoretical approach to practice in the third part it reports on the outcomes of using a computerized simulation game to show members of cooperatives how to manage their business and the cooperative business at

the same time enabling them to understand and actively practice two level entrepreneurship

human action a treatise on laissez faire capitalism by ludwig von mises is a historically important and classic publication on economics and yet it can be an intimidating work due to its length and formal style choice cooperation enterprise and human action however skillfully relays the main insights from human action in a style that will resonate with modern readers the book assumes no prior knowledge in economics or other fields and when necessary it provides the historical and scholarly context necessary to explain the contribution mises makes on a particular issue to faithfully reproduce the material in human action this work mirrors its basic structure providing readers with an enjoyable and educational introduction to the life s work of one of history s most important economists

cooperatives stem from interchanges in day to day life and have the capacity to extend their reach to cover economic exchanges across time and space they offer a complementary form of relationships to the ones economists typically study and favour a culmination of years of research this book quite magnificently explains and persuasively advocates a much neglected institution sir partha dasgupta university of cambridge uk this eloquent book analyses the theory of the cooperative form of enterprise from an historic perspective whilst assessing its appeal in the current economic environment the authors show that cooperatives are enterprises acting in harmony in the market economy and explore the following questions how do cooperatives achieve solidarity in keeping together elements normally considered in conflict why is the cooperative enterprise not as widespread as the capitalist enterprise what is its appeal in the present conditions of crisis of the world economy alongside other related issues the volume also discusses the theoretical foundations of the cooperative enterprise and offers an overview of the historical development of the cooperative movement around the world special reference is made to the italian case which is scarcely known within the international milieu broad in scope whilst concise in elucidation this book will be invaluable to students enrolled in economic social historical and political curricula as well as leaders of the cooperative movement people interested in finding a practical alternative to the capitalist form of enterprise will also find this book enriching

since a reform in 2010 foreign investors can establish a foreign invested limited partnership enterprise filpe in china together with chinese or foreign investors the filpe can be combined with a domestic or foreign corporate general partner thus allowing for a structure that offers the flexibility and taxation conditions of a partnership while protecting its investors against personal liability like a company the book explores from the perspective of a foreign investor if the filpe is an attractive investment vehicle by analysing whether it provides the characteristics that are internationally recognized as constituting a standard corporate form among these characteristics the three that are most strongly interconnected and interdependent form the core of the analysis legal personality limited liability and transferable ownership interest these are analyzed in context of china s restrictive framework of foreign investment regulations and enterprise organization law

with the modern value theory as basis the point of discussion is aristotelian thomistic
