a useful and informative book i would recommend it to students wanting a good
introduction to the current issues in criminal justice and probation vista
perspectives on probation the three chapters on treatment in practice are all
excellent the treatment of sex offenders mentally disordered offenders and the
treatment of drug misuse are all described within the social context of public
concern ian gives a good overview of the sex offenders treatment program as
operated in prisons and finkelhor's model which is typically used by probation in
working with offenders simon bass caring magazine treatment and rehabilitation
have been central to the development of criminal justice policy and have played
an important role in the development of criminology in recent years punishment
and retribution have attracted more attention than rehabilitation but there has
been a resurgence of interest in treatment and rehabilitation with indications
that some things do work and an emphasis on evidence based policy making it is
also the belief of many that a penal policy without an adequate treatment
strategy is unjust and a denial of human rights in this book iain crow provides an
accessible overview of the concepts of treatment and rehabilitation adopting a
deliberately broad definition and considers the historical basis of treatment and

its place within the penal system and british criminology the collapse of the rehabilitative ideal is examined along with what followed it and the development of the more recent what works movement the basis for evaluating what works is also subjected to critical examination in the second part the book looks at the part that particular agencies such as the probation service prison and non statutory organisations have played in the treatment of offenders in part three the issues raised by treatment and rehabilitation are illustrated with reference to three groups of offenders sexual offenders drug misusers and mentally disordered offenders the treatment and rehabilitation of offenders will be essential reading for students of criminology and criminal justice at both undergraduate and post graduate levels
