social movements have shaped and are shaping modern societies around the globe this is evident when we look at examples such as the arab spring spain s indignados and the wider occupy movement in this volume experts analyse the classic and new social movements from a uniquely global perspective and offer insights in current theoretical discussions on social mobilisation chapters are devoted both to the study of continental developments of social movements going back to the nineteenth century and ranging to the present day and to an emphasis on the transnational dimension of these movements interdisciplinary and truly international this book is an essential text on social movements for historians political scientists sociologists philosophers and social scientists

in this innovative book david smith ultimately links what happens on the ground in the neighbourhoods where people live to the larger political and economic forces at work putting these connections in a historical framework and using a case study approach the societies of the world s underdeveloped countries are now undergoing an urban revolutio

what do we know about health in other countries how can we use explanations from health psychology to understand health issues around the world in health psychology in global perspective author frances e aboud uses health psychology to examine the health issues facing developing countries and compares them with issues faced by people in developed countries she uses a psychosocial perspective rather than the typical biomedical and anthropological perspectives usually applied to health issues in developing countries and integrates diverse literature from a variety of disciplines including epidemiology psychology education anthropology and nursing accessible to a broad audience this volume brings mainstream health psychology concepts to bear on the problems of international health and cross cultural issues to bear on concepts and theories in mainstream health psychology it also incorporates a number of pedagogical features—case vignettes problem solving debate exercises case studies—which make it an ideal supplemental text for courses in health psychology students will appreciate the extended case studies while instructors will value the multidisciplinary perspective a thought provoking examination of the state of knowledge about health in developing countries health psychology in global perspective is a valuable resource for academics and professionals in health psychology psychology cross cultural psychology clinical psychology social psychology anthropology and public health

now available in three thematic volumes the second edition of moral issues in global perspective is a collection of the newest and best articles on current moral issues by

moral and political theorists from around the globe each volume seeks to challenge the standard approaches to morality and moral issues shaped by western liberal theory and to extend the inquiry beyond the context of north america covering a broad range of issues and arguments this collection includes critiques of traditional liberal accounts of rights justice and moral values while raising questions about the treatment of disadvantaged groups within and across societies affected by globalization providing new perspectives on issues such as war and terrorism reproduction euthanasia censorship and the environment each volume of moral issues in global perspective incorporates work by race class feminist and disability theorists human diversity and equality the second of the three volumes examines issues of equality and difference and the effects within and across borders of kinds of discrimination on the basis of race ethnicity gender disability class and sexual orientation nine essays are new four of which were written especially for this volume moral issues in global perspective is available in three separate volumes moral and political theory human diversity and equality and moral issues

language is the species specific human version of the animal system of communication in contrast to non human animals language enables humans to invent a plurality of possible worlds reflect upon signs be responsible for our actions gain conscious awareness of our inevitable mutual involvement in the network of life on this planet and be responsibly involved in the destiny of the planet the author looks at semiotics the study of signs symbols and communication as developing sequentially rather than successively more synchronically than diachronically she discusses the contemporary phenomenon that people in today s society have witnessed and participated in as part of the development of semiotics although there is a long history preceding semiotics in a sense the field is as a phenomenon more of our time than of any time past its leading figures whom petrilli examines belong to the twentieth and twenty first century semiotics is associated with a capacity for listening this capacity is also the condition for reconnecting to and recovering the ancient vocation of semiotics as that branch of medical science relating to the interpretation of signs or symptoms the pragmatic aspect of global semiotics studies the impact of language or signs on those who use them and looks for consequences in actual practice in this respect petrilli theorizes that the task for semiotics in the era of globalization is nothing less than to take responsibility for life in its totality

this popular book provides a compelling introduction to thinking about childhood in rigorous and critical ways karen wells offers a unique global perspective on children s lives showing how the notion of childhood varies widely and is continuously being radically re shaped taking children seriously as active participants in society the book explores key social issues such as how children are constituted as raced classed and gendered subjects how school and work operate as sites for the governing of childhood and how children both shape and are shaped by politics culture and the economy taking an engaging historical and comparative approach the book discusses wide ranging topics including children s rights the family play labour migration and trafficking in addition to updated literature throughout this revised third edition includes extensive new material on children s activism politics and war and a whole new chapter on juvenile justice the book will continue to be of great value to students and scholars in the fields of sociology geography social policy and development studies it will also be a valuable companion to practitioners whose work involves or impacts children as well as to anyone interested in childhood in the contemporary world

for one quarter term introductory sociology courses society the basics sixth edition offers a complete multimedia learning program in sociology including a carefully coordinated package that includes the textbook a free interactive cd rom in every copy and an innovative companion website as in the past it features a balanced theoretical foundation structural functional symbolic interaction and social conflict analysis is supplemented by cultural ecology social exchange theory and sociobiology in addition the three main themes that make up the core of the book remain social

diversity within the united states a global perspective and an emphasis on critical thinking new a new chapter on sexuality highlights the socially constructed character of human sexuality exploring the myths and realities surrounding sexual orientation and then looks at sexual controversies including teen pregnancy pornography prostitution and sexual violence new a new combined chapter population urbanization and environment provides an integrated discussion of three closely related issues new website listings each chapter concludes with a sites to see section that l

in this pioneering work paul r abramson and ronald inglehart show that the gradual shift from materialist values such as the desire for economic and physical security to post materialist values such as the desire for freedom self expression and the quality of life is in all likelihood a global phenomenon value change in global perspective analyzes over thirty years worth of national surveys in european countries and presents the most comprehensive and nuanced discussion of this shift to date by paying special attention to the way generational replacement transforms values among mass publics the authors are able to present a comprehensive analysis of the processes through which values change in addition value change in global perspective analyzes the 1990 91 world values survey conducted in forty societies representing over seventy percent of the world s population these surveys cover an unprecedentedly broad range of the economic and political spectrum with data from low income countries such as china india mexico and nigeria newly industrialized countries such as south korea and former state socialist countries in eastern europe and the former soviet union this data adds significant new meaning to our understanding of attitude shifts throughout the world value change in global perspective has been written to meet the needs of scholars and students alike the use of percentage percentage differences and algebraic standardization procedures will make the results easy to understand and useful in courses in comparative politics and in public opinion paul r abramson is professor of political science michigan state university ronald inglehart is professor of political science and program director institute for social research university of michigan

current social and political theories which tend to dismiss religious resurgence as a deviant occurrence in the broad sweep of history do not provide an adequate framework for the study of the dramatic resurgence of religion as a worldwide political force this book is the first to address the interplay of religion and politics systematically and on a global scale offering interpretive essays as well as quantitative comparative analyses it develops a comprehensive theoretical framework and presents the most complete comparative account available of the realities of religious politics in the contemporary world the first of the interpretive chapters focuses on the

cultural factor as a means of clarifying the role of religion in the modern world system the next two chapters examine the concept of the self in the context of globalization and the absence of solidarity as a unifying force in societal systems the role of ultimate values in politics and the reasons for the emergence of militant religious movements in nation states is also considered a worldwide study of religious change between 1900 and 1980 gives a clear picture of contemporary global religious movements and formulates a tentative set of explanations of change based on data analysis the statistical links between religious beliefs and political views and between religion and democracy are explored the editor s concluding chapter looks at the implications of the authors findings for general theory in the sociology of religion the editor stresses the need for reconceptualizing basic theoretical constructs particularly the concept of religion itself an important contribution to our understanding of the religious and political forces that are shaping the modern world this work will be of interest to academics researchers and students of world religions sociology and political science
