Section 1 Business Environment

Question 1 Which of the following is NOT a characteristic of a sole trader

- a Unlimited liability
- b Separate legal entity
- c Easy to set up
- d Profits belong to the owner

Answer b Separate legal entity

Explanation A sole trader is a business owned and operated by one person The owner and the business are not legally separate meaning the owner has unlimited liability for the business's debts

Options

Question 2 Which of the following is an example of a primary sector business

- a Car manufacturing
- b Retail banking
- c Oil extraction
- d Software development

Answer c Oil extraction

Explanation The primary sector encompasses businesses involved in extracting raw materials from the earth Oil extraction falls under this category while banking and software development belong to the secondary tertiary and quaternary sectors respectively

Question 3 Which of the following is NOT a factor that can influence the demand for a product

- a Price of the product
- b Availability of substitutes
- c Cost of production
- d Consumer income

Answer c Cost of production

Explanation Demand is influenced by factors affecting consumers' willingness and ability to buy a product Cost of production impacts supply not demand Price availability of substitutes and consumer income all directly affect consumer demand

Question 4 Which of the following is an example of a fixed cost

- a Raw materials
- b Rent
- c Wages for production staff
- d Advertising

Answer b Rent

Explanation Fixed costs remain constant regardless of the level of production Rent is a fixed cost as it is paid regardless of the amount produced or services rendered Raw materials wages for production staff and advertising are variable costs fluctuating with production levels

Question 5 Which of the following is a benefit of globalization

- a Increased competition
- b Loss of jobs in developed countries
- c Environmental damage
- d Access to cheaper goods and services

Answer d Access to cheaper goods and services

Explanation Globalization brings about various benefits including access to cheaper goods and services from around the world Increased competition loss of jobs in developed countries and environmental damage are potential drawbacks of globalization

Section 2 Management Accounting

Question 6 What is the main purpose of management accounting

- a To produce financial statements for external stakeholders
- b To provide information for decisionmaking
- c To comply with accounting standards
- d To record financial transactions

Answer b To provide information for decisionmaking

Explanation Management accounting focuses on providing relevant and timely information to internal users like managers to aid in decisionmaking and resource allocation While financial accounting serves external stakeholders management accounting primarily serves internal needs

Question 7 Which of the following is a cost that can be directly traced to a specific product or service

- a Rent
- b Salaries of administrative staff
- c Direct materials
- d Depreciation of factory equipment

Answer c Direct materials

Direct materials Explanation Direct costs are those that can be directly linked to a specific product or service Direct materials are directly used in producing goods or services and can be traced to the product Rent administrative staff salaries and factory equipment depreciation are indirect costs not directly related to specific products or services

4 Question 8 What is the difference between a budget and a forecast

a A budget is a plan while a forecast is a prediction
 b A budget is a prediction while a forecast is a plan
 c There is no difference between a budget and a forecast
 d A budget is for the short term while a forecast is for the long term

Answer a A budget is a plan while a forecast is a prediction

Explanation A budget is a detailed financial plan for a future period setting targets for revenue and expenditure A forecast is an estimation of future events such as sales or costs based on historical data and other factors

Question 9 Which of the following is a measure of profitability

a Current ratio
 b Return on investment ROI
 c Acid test ratio
 d Debtor days

Answer b Return on investment ROI

Explanation ROI measures the profitability of an investment by calculating the return generated by the investment relative to its cost Current ratio acid test ratio and debtor days are all measures of liquidity not profitability

Question 10 What is the purpose of a variance analysis

a To identify and analyze deviations from budgeted figures
 b To prepare financial statements
 c To forecast future sales
 d To evaluate the performance of competitors

Answer a To identify and analyze deviations from budgeted figures

Explanation Variance analysis compares actual results with budgeted figures identifying deviations or variances and analyzing them to help management understand performance discrepancies and take corrective action

5 Section 3 Financial Accounting

Question 11 Which of the following is an accounting principle that states that assets should be recorded at their original cost

a Going concern
 b Accruals
 c Historical cost
 d Matching

Answer c Historical cost

Explanation The historical cost principle mandates that assets be recorded at their initial purchase price the amount paid to acquire them This is a key principle in traditional accounting

Question 12 Which of the following is a current asset

a Land
 b Buildings
 c Inventory
 d Goodwill

Answer c Inventory

Explanation Current assets are those expected to be converted into cash or used up within a year Inventory being goods held for sale falls under this category Land buildings and goodwill are all noncurrent assets

Question 13 Which of the following is a liability

a Accounts receivable
 b Accounts payable
 c Share capital
 d Retained earnings

Answer b Accounts payable

Explanation A liability represents an obligation of the business to pay money or provide services to others Accounts payable representing money owed to suppliers is a liability Accounts receivable share capital and retained earnings are all assets

Question 14 What is the purpose of a statement of cash flows

a To show the profitability of the business
 b To show the changes in the business's equity
 c To show the movement of cash in and out of the business
 d To show the assets and liabilities of the business

Answer c To show the movement of cash in and out of the business

Explanation The statement of cash flows reports the cash inflows and outflows of a business during a specific period This statement classifies cash flows into operating investing and financing activities

Question 15 Which of the following is a type of audit

a Internal audit
 b Management audit
 c Operational audit
 d All of the above

Answer d All of the above

Explanation Internal audits are conducted by an organization's own staff to review and evaluate internal controls and financial reporting Management audits assess management practices and overall performance Operational audits assess the effectiveness of specific business operations All these are types of audits
