publisher description in our society the recognition of talent depends largely on idealized and entrenched perceptions of academic achievement and job performance thinking styles bucks this trend by emphasizing the method of our thought rather than its content psychologist robert sternberg argues that ability often goes unappreciated and uncultivated not because of lack of talent but because of conflicting styles of thinking and learning using a variety of examples that range from scientific studies to personal anecdotes sternberg presents a theory of thinking styles that aims to explain why aptitude tests school grades and classroom performance often fail to identify real ability he believes that criteria for

intelligence in both school and the workplace are unfortunately based on the ability to conform rather than learn he takes the theory a step further by stating that achievement can be a result of the compatibility of personal and institutional thinking styles and failure is too often the result of a conflict of thinking styles rather than a lack of intelligence or aptitude sternberg bases his theory on hard scientific data yet presents a work that remains highly accessible

practical guidance for managing your own career selling points provides reader with advice for the personal rather than the organizational side of career management reflective articles cover topics such as launching a second career revitalizing interest in and commitment to your work how to effectively manage your time after a lay off and strategies for making part time arrangements work
