The film demonstrates how storytelling can be a powerful tool for understanding and challenging our perceptions of the city and its inhabitants. By amplifying the voices of those often marginalized we gain a deeper understanding of the human experience in urban spaces. Ultimately City of God serves as a powerful reminder of the city's complexity, showcasing its beauty and its brutality, its hope and its despair. By exploring these contradictory forces, the film offers a compelling portrait of the human condition both in the urban jungle and beyond.

this is the story of the great and final city of john s revelation plumbing the first three centuries of christian literature this careful narrative highlights the early significance of one of the most influential evocative and controversial images in christian scripture chronicling how dozens of early writers from justin and irenaeus to origen and methodius and from the montanists to tertullian victorinus and lactantius imagined and applied the coming new jerusalem the study demonstrates how the city regardless of its myriad and often competing interpretations always pointed to the highest possible union of god and humanity both here and now and in the age to come

the clarity of god's existence examines the need for theistic proofs within historic christianity and the challenges to these since the enlightenment historically and scripturally christianity has maintained that unbelief is inexcusable if failing to know god is a sin the implication is that humans can and should know god humans should know god because his eternal power and divine nature are clearly revealed in the things that are made and yet anderson argues more time is spent on avoiding the need for clarity to establish inexcusability than on actually providing an argument or proof proofs that rely on aristotle or plato and that establish a prime mover or designer are thought to be sufficient but the adequacy of these not only to prove the god of theism but also to prove anything at all has been called into question by enlightenment thinkers like david hume after considering the traditional proofs and tracing the history of challenges to theistic proofs from hume to kant and down to the twentieth century anderson argues that the standard methods of apologetics have failed to sufficiently respond classical apologetics evidentialism presuppositionalism reformed epistemology and others fail to adequately answer the challenges of the enlightenment if this is the case what is the outcome for christianity anderson offers an explanation as to why traditional proofs have failed and for what is necessary to offer a proof that not only responds to hume and kant but also establishes the clarity of god's existence the traditional proofs failed precisely in not aiming at the clarity of god's existence and they failed in this because of a faulty view of the goal of christian life if the blessed life is to be attained in a direct vision of god in heaven then there is little to no reason to ask for more than the bare minimum required to get into heaven justification furthermore if the highest blessing is this direct vision then the glory of god revealed in his work is considered as less important and even set aside by way of contrast if god's eternal power and divine nature are clearly revealed in his works and the blessing comes in knowing god then it is of the almost importance for christianity to demonstrate the clarity of god's existence this is an exciting book that advances the status of philosophy of religion by analyzing and probing some fundamental issues in contemporary philosophy and theology the emphasis on clarity is to me new and fresh and provocative i'm really surprised that the constellation of clarity responsibility and inexcusability has not been examined in detail before stephen webb wabash college
