acclaim for the first edition Ôthis is undoubtedly a useful collection of essays for environmental policy makers and anyone interested in the relationship between national government and transnational forces the collection brings together some interesting perspectives and should prove a useful complement to the existing political sociology of the environment Ô Ð international sociology Ð review of books Ôthe handbook of globalisation and environmental policy is a very important book more than 40 experienced authors including some of the most important international thought leaders of our time have confronted a crucial question how can and should national governments come to grips with the need for global action on a wide range of increasingly urgent environmental challenges that exceed their authority and capability through close examination of numerous case studies a balanced perspective that takes government business and civil society into account and fresh interdisciplinary thinking about a range of policy tools the handbook offers a treasure trove of new concepts and new perspectives the authors conclude that by acknowledging the ongoing erosion of national sovereignty and accepting the growing need to work together in supranational forums national governments can in fact increase their capacity to shape their own destiny Ô Ð lawrence susskind massachusetts institute of

technology us. In an increasingly interdependent world global forces affect both the design and effectiveness of environmental policy. This handbook provides an unusually creative and comprehensive guide not only to the nature of these forces and their impacts but also to how a better understanding of these forces can provide a foundation for improving the effectiveness of environmental policy. Tom Tietenberg and Colby College us. In the current era of globalisation national governments are increasingly exposed to international influences that present new constraints and opportunities for domestic environmental policies. This comprehensive revised handbook pushes the frontiers of theoretical and empirical knowledge and provides a state of the art examination of the multifaceted effects of globalisation on environmental governance including substantially revised as well as new contributions from leading authorities. The handbook offers an insightful overview of recent developments at the intersection of globalisation and national environmental policy. It covers themes including national regimes, trade rules, types of goods, federalism, innovation standards, citizen consumers, developing countries, policy networks, partnerships, and carbon trading. The handbook's depth and scope will appeal to a broad and varied readership across academics, students, and policy makers interested in public and private governance, environmental economics, international relations, environmental politics, and law, sociology, and political science.

A consistent bestseller since its publication in 2000, *Changing Politics of Canadian Social Policy* is a one-of-a-kind resource in the fields of political science and social work. Examining current conditions affecting the development of social policies in Canada, this book offers in-depth critical analysis of how these policies first arose and the implications they pose for future policy development. This new edition of *Changing Politics of Canadian Social Policy* features updated chapters while retaining the first edition's analytical focus on economic globalization, societal pluralization, and social protection. The authors offer fresh considerations of gender relations and families, community agencies, and the voluntary sector as well as the social policy activities of all levels of government in the Canadian federation. *Changing Politics of Canadian Social Policy* will continue to provide the much-needed groundwork for students and policymakers as well as propose real solutions for the future.

This wide-ranging text assesses the extent to which policy problems and responses in different countries have common causes or spring from specific national circumstances. Systematically comparing Australia, Germany, Japan, New Zealand, the Netherlands, Sweden, Singapore, the UK, and the US but ranging more widely as appropriate, the fully revised second edition includes an additional chapter on the politics of health and an increased focus on the individual patient in different systems.

An overview of recent theoretical and policy related developments in monetary economics
