insights 1 the castle that was to play such a large role in jack lee s life was

fourteen miles to the southwest of where he was schloss itter as it is called in German was a hilltop castle that commanded the entrance to Austria's Brixental valley. 2. schloss itter was a castle that was looted and partially destroyed during the 1515–1526 Tyrolean peasant uprising; it was rebuilt beginning in 1532 and was home to an ecclesiastical court charged with suppressing witchcraft in the region. 3. the castle remained in disrepair even after Tyrol returned to Austrian rule following the 1814–1815 Congress of Vienna, but in 1878 a Munich-based entrepreneur named Paul Spiess bought the property and turned it into a large and exclusive inn. The hotel ultimately failed, and in 1884 the disappointed businessman sold the castle to one of Europe's most acclaimed musicians, Sophie Menter. 4. following the Anschluss, Nazi Germany set about erasing all vestiges of independent Austria; the country was divided into seven administrative districts: the Reichsgaue with Itter and the rest of Tyrol governed by a Nazi functionary based in Vorarlberg.

Ernest R. May's *Strange Victory* presents a dramatic narrative and reinterpretation of Germany's six-week campaign that swept the Wehrmacht to Paris in spring 1940. Before the Nazis killed him for his work in the French resistance, the great historian Marc Bloch wrote a famous short book, *Strange Defeat*, about the treatment of his nation at the hands of an enemy the French had believed they could easily dispose of. In *Strange Victory*, the distinguished American historian Ernest R. May asks the opposite question: how was it that Hitler and his generals managed this swift conquest, considering that France and its allies were superior in every measurable dimension and considering the Germans' own skepticism about their chances? *Strange Victory* is a riveting narrative of those six crucial weeks in the spring of 1940, weaving together the decisions made by the high commands with the welter of confused responses from exhausted and ill-informed or ill-advised officers in the field. Why did Hitler want to turn against France at just this moment, and why were his poor judgment and inadequate intelligence about the allies nonetheless correct? Why didn't France take the offensive when it might have led to victory? What explains France's failure to detect and respond to Germany's attack plan? It is May's contention that in the future nations might suffer strange defeats of their own if they do not learn from their predecessors' mistakes in judgment.
