ecclesiastical law review

thomas aquinas and medieval canon law bridges for the first time two worlds of scholarship that have never been explored in book length form and investigates an under researched area in thomistic studies namely the question of how thomas aquinas engaged the ecclesiastical law and jurisprudence of his day neither historians of medieval canon law nor experts on thomas s thought have previously paid much attention to the canon law tradition as a source for thomas s work and an influence on his thought but as this volume shows his consideration of mendicant life law justice oaths penance clerical orders the eucharist baptism property commerce marriage and more reveal engagement with key canon law texts and concepts and with the jurisprudence of major canonists the book uncovers how aquinas encountered canonical regulations and jurisprudence as a dominican an educator in both theology and pastoral care and a participant in the secular mendicant controversy in his life education community and his way of thought thomas aquinas could not avoid and necessarily encountered and dealt with the canonical tradition he did so in a distinctive way working as he did with his theological and philosophical source material to craft his own great synthesis what this volume shows if nothing else is that the canon law tradition should be taken into consideration when assessing thomas s synthetic thought following the editors introduction thirteen scholarly contributions and an epilogue explore aquinas s interaction with medieval canon law through four major themes dominican matters foundations matters of faith truth and law moral matters and sacramental matters approximately half the contributors are specialists from the field of medieval canon law and half are grounded in thomistic tradition the result is a unique and scholarly contribution to two major research areas that may open avenues for similar studies of other key figures in the scholastic tradition

huguccio was an important lawyer of the medieval church bishop of ferrara and one of the greatest representatives of twelfth century scholasticism in this book length study of this influential figure wolfgang p müller provides a critical account of the biographical information on the man and his writings he discusses the various aspects of huguccio s career and thought as well as the manuscript tradition of some of his works the author s

scholarship rests on direct consultation and painstaking analysis of enormous quantities of manuscript material this book provides the point of departure for anyone wishing to study huguccio first hand it will be worthy reading for students of medieval canon law and an essential addition to all libraries supporting research in medieval studies

If you ally dependence such a referred
