interconnectedness of ethics and technology. It challenges the simplistic notion that technology is inherently neutral. It argues that technology is a tool and like any tool it can be used for good or ill. The ethical responsibility lies not with the technology itself but with the individuals and organizations that create, deploy, and use it. Metaphorical Musings Think of the internet as a vast uncharted ocean. Johnson's book is your compass and your sextant, guiding you safely through the treacherous currents of misinformation, cyberbullying, and data breaches. Without a strong ethical compass, you risk being shipwrecked on the shoals of irresponsible technology use.
