this much needed volume represents all that is new in the field of global ethics it recognizes the emergence of the search to move beyond relativism and the study of ethical aspects of globalization acknowledging aspects of globalization that make ethical reasoning itself a challenging task as such the young field of global ethics is a search for new approaches and methodologies that go beyond

existing ones and succeed in addressing these ethical issues of globalization this volume presents these new developments focusing specifically on how to re conceive ethics in order to come to grips with ethical and political life today it sets out an agenda for the field of global ethics addresses the critiques and illustrates the rapprochement of global ethics this is a valuable collection of essays that connect theoretical innovation with substantive issues in the public realm and hence is suitable for a wide audience across philosophy politics international relations and development studies

global ethics focuses on the most pressing contemporary ethical issues poverty global trade terrorism torture pollution climate change and the management of scarce resources it draws on moral and political philosophy political and social science empirical research and real world policy and activism the routledge handbook of global ethics is an outstanding reference source to the key topics problems and debates in this exciting subject presenting an authoritative overview of the most significant issues and ideas in global ethics the 31 chapters by a team of international contributors are structured into six key parts normative theory conflict and violence poverty and development economic justice bioethics and health justice environment and climate ethics covering the theoretical and practical aspects of global ethics as well as policy the routledge handbook of philosophy of global ethics provides a benchmark for the study of global ethics to date as well as outlining future developments it will prove an invaluable reference for policy makers and is essential reading for students and researchers in philosophy international relations political science environmental and development studies and human rights law

this book will be the first systematic examination of the role that ethics plays in international security in both theory and practice and offers the reader a concrete ethics for global security questions of morality and ethics have long been central to global security from the death camps world wars and h bombs of the 20th century to the humanitarian missions tsunamis terrorism and refugees of the 21st this book goes beyond the just war tradition to demonstrate how ethical commitments influence security theory policy and international law across a range of pressing global challenges the book highlights how from patrolling a territorial border to maintaining armed forces security practices have important ethical implications by excluding some from consideration presenting others as potential threats and exposing them to harm and licensing particular actions while many scholars and practitioners of security claim little interest in ethics ethics clearly has an interest in them this innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions deterrence terrorism targeted killing and torture and the ethical implications of new security concerns such

as identity gender humanitarianism the responsibility to protect and the global ecology it advances a concrete ethics for an era of global threats and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just stable and inclusive global order this book fills an important gap in the literature and will be of much interest to students of ethics security studies and international relations

this book contains the text of the universal declaration of human responsibilities an account of the historical background to it a discussion of its significance and responses from around the world

patrick riordan takes a different approach to the questions of global ethics by following the direction of questioning initially pioneered by aristotle for him the most basic question of ethics is what is the good life so in the context of contemporary global ethics the aristotelian questioner wonders about the good life on a global scale global ethics and global common goods fills the gap in existing literature caused by the neglect of the topic of the good in global ethics beginning by outlining answers to questions such as what is good and is there a highest good riordan demonstrates the value of a common good perspective in matters of universal human rights and their institutions and practices the study of international relations and the construction of global institutions and debates about global justice between cosmopolitanism nationalism and economic globalization philosophical questions provoked by these debates are identified and pursued such as the question of a common human nature which seems presupposed by the language of universal rights for experienced students of political philosophy and international relations this is a crucial text in the literature exploring the possibilities for politics on a world scale while the perspective of the common good adds a new and distinctive dimension to current debates on global security and the challenges of managing conflict

this book investigates the functioning and effects of moral rules and values as endogenous elements of governance structures when applied to economic and social transactions the point of departure and framework of this book is josef wieland s theory of ethics of governance its focal point is the governance of the normative aspects of corporations the ethics of governance is a comparative research project on business and economic ethics which started 15 years ago divided into five chapters the book provides a comprehensive insight into the theoretical foundation and application oriented results of the research project it covers theoretical conceptual and practical challenges in the global economy with regard to a sustainable economy the social responsibility of corporations and their transcultural and normative management by offering comprehensive insight into the research results of the ethics of governance project this book

provides a unique scientific work on business and economic ethics

one world now seamlessly integrates major developments of the past decade into peter singer s classic text on the ethics of globalization one world singer often described as the world s most influential philosopher here addresses such essential concerns as climate change economic globalization foreign aid human rights immigration and the responsibility to protect people from genocide and crimes against humanity whatever country they may be in every issue is considered from an ethical perspective this thoughtful and important study poses bold challenges to narrow nationalistic views and offers valuable alternatives to the state centric approach that continues to dominate ethics and international theory singer argues powerfully that we cannot solve the world s problems at a national level and shows how we should build on developments that are already transcending national differences this is an instructive and necessary work that confronts head on both the perils and the potentials inherent in globalization

many challenges lie ahead in the development of a global information society culture and democracy are two areas which may be under particular threat the book reflects on today s complex and uncertain cultural and democratic developments arising as a result of an increasingly global technologically connected world in particular it focuses on the internet examining new metaphors for communication defining the issues at stake and proposing options actions and solutions among the issues discussed were multi cultural developments cultural sensitivities and the involvement of cultural minorities generation gaps gender issues technology access for the elderly and the disabled technology transfer

the ethics of global poverty offers a thorough introduction to the ethical issues surrounding global poverty featuring case studies throughout this textbook is essential reading for students studying global ethics or global poverty who want an understanding of the moral issues that arise from vast inequalities of wealth and power in a highly interconnected world

the field of global health is expanding rapidly an increasing number of trainees are studying and working with marginalized populations often within low and middle income countries such endeavours are beset by ethical dilemmas mitigating power differentials addressing cultural differences in how health and illness are viewed and obtaining individual and community consent in research this introductory textbook supports students to understand and work through key areas of concern assisting them in moving towards a more critical view of global health practise divided into two sections covering the theory and practice of global health ethics the text begins by looking at

definitions of global health and the field's historical context it draws on anti colonial perspectives concepts developing social justice and solidarity as key principles to guide students the second part focuses on ethical challenges students may face in clinical experiences or research topics such as working with indigenous communities the politics of global health governance and the ethical challenges of advocacy are explored using a case study approach an introduction to global health ethics includes recommended resources and further readings and is ideal for students from a range of disciplines including public health medicine nursing law and development studies who are undertaking undergraduate and graduate courses in ethics or placements overseas

identifies different ways of thinking about ethics and of thinking ethically about international and global relations

the philosophy of hans jonas was widely influential in the late twentieth century warning of the potential dangers of technological progress and its negative effect on humanity and nature jonas advocated greater moral responsibility and taking this as a starting point this volume explores current ethical issues within the context of his philosophy it considers the vital intersection between law and global ethics covering issues related to technology and ethics medical ethics religion and environmental ethics examining different aspects of hans jonas philosophy and applying it to contemporary issues leading international scholars and experts on his work suggest original and promising solutions to topical problems this collection of articles revives interest in hans jonas ethical reasoning and his notion of responsibility the book covers a wide range of areas and is useful to those interested in philosophy and theory of law human rights ethics bioethics environmental law philosophy and theology as well as political theory and philosophy

global ethics addresses some of the most pressing ethical concerns today including rogue states torture scarce resources poverty migration consumption global trade medical tourism and humanitarian intervention it is both topical and important how we resolve or fail to resolve the dilemmas of global ethics shapes how we understand ourselves our relationships with each other and the social and political frameworks of governance now and into the future this is seen most clearly in the case of climate change where our actions now determine the environment our grandchildren will inherit but it is also the case in other areas as our decisions about what it is permissible for humans beings to do to each other determines the type of beings we are this book suitable for course use introduces students to the theory and practice of global ethics ranging over issues in global governance and citizenship poverty and development war and terrorism bioethics environmental and climate ethics and gender justice

this book presents a serious and workable solution to the grave problem of climate change grounded in practical cosmopolitan ethics in particular it addresses a key aspect of climate change politics and policy that is often overlooked the role of individuals

as the twentieth century draws to a close and the rush to globalization gathers momentum political and economic considerations are crowding out vital ethical questions about the shape of our future now hans küng one of the world s preeminent christian theologians explores these issues in a visionary and cautionary look at the coming global society how can the new world order of the twenty first century avoid the horrors of the twentieth will nations form a real community or continue to aggressively pursue their own interests will the machiavellian approaches of the past prevail over idealism and a more humanitarian politics what role can religion play in a world increasingly dominated by transnational corporations küng tackles these and many other questions with the insight and moral authority that comes from a lifetime s devotion to the search for justice and human dignity arguing against both an amoral realpolitik and an immoral resurgence of laissez faire economics küng defines a comprehensive ethic founded on the bedrock of mutual respect and humane treatment of all beings that would encompass the ecological legal technological and social patterns that are reshaping civilization if we are going to have a global economy a global technology a global media küng argues we must also have a global ethic to which all nations and peoples of the most varied backgrounds and beliefs can commit themselves the world he says is not going to be held together by the internet for anyone concerned about the world we are creating a global ethic for global politics and economics offers equal measures of informed analysis compassionate foresight and wise counsel

leading cultural political and religious leaders offer witness to a new global awareness and to new ethical consensus showing how we can move into the 21st century with integrity this collection reveals why the world if it is to survive needs a fundamental consensus concerning binding values irrecoverable standards and personal attitudes
