I remember a young girl, Sarah, who struggled with anxiety and social isolation. She retreated into her room, avoiding school and social interactions. Using the principles outlined in this book, her therapist collaborated with Sarah to identify meaningful occupations that sparked her interest: painting, gardening, and caring for her pet rabbit. Through carefully structured activities, Sarah gradually regained confidence, improving her social skills and developing a sense of purpose. This is the transformative power of occupation, beautifully explained throughout the text.
