from the author of the changing mind and the organized mind comes a new york times bestseller that unravels

the mystery of our perennial love affair with music what do the music of bach depeche mode and john cage fundamentally have in common music is an obsession at the heart of human nature even more fundamental to our species than language from mozart to the beatles neuroscientist psychologist and internationally bestselling author daniel levitin reveals the role of music in human evolution shows how our musical preferences begin to form even before we are born and explains why music can offer such an emotional experience in this is your brain on music levitin offers nothing less than a new way to understand music and what it can teach us about ourselves music seems to have an almost wilful evasive quality defying simple explanation so that the more we find out the more there is to know daniel levitin s book is an eloquent and poetic exploration of this paradox sting you ll never hear music in the same way again classic fm magazine music levitin argues is not a decadent modern diversion but something of fundamental importance to the history of human development literary review
