contemporary accounts in drug discovery and development
a useful guide for medicinal chemists and pharmaceutical scientists
drug discovery is a lengthy and complex process that typically involves identifying an unmet medical need
determining a biological target
chemical library screening to identify a lead
chemical optimization
preclinical studies and clinical trials
this process often takes many years to complete and relies on practitioners knowledge of chemistry and biology but also and perhaps more importantly on experience
improving the success rate in discovery and development through a thorough knowledge of drug discovery principles and advances in technology is critical for advancement in the field
contemporary accounts in drug discovery and development provides drug discovery scientists with the knowledge they need to quickly gain mastery of the drug discovery process
a thorough accounting is given for each drug covered within the book as the authors provide pharmacology drug metabolism biology drug development and clinical studies for every case with modern drug discovery principles and

technologies incorporated throughout contemporary accounts in drug discovery and development readers will also find case histories used as an engaging way of learning about the drug discovery development process detailed biological rational and background information drug design principles sar development admet considerations and clinical studies the full history of individual marketed small molecule drugs coverage of drug candidates that have passed phase i clinical trials with different modalities such as antibody drug conjugates adc proteolysis targeting chimera protac and peptide drugs the application of new technologies in drug discovery such as dna encoded libraries del positron emission tomography pet and physics based computational modeling employing free energy perturbation fep contemporary accounts in drug discovery and development is a helpful tool for medicinal chemists organic chemists pharmacologists and other scientists in drug research and process development it may be considered essential reading for graduate courses in drug discovery medicinal chemistry drug synthesis pharmaceutical science and pharmacology it is also a useful resource for pharmaceutical industry labs as well as for libraries

this book examines delisting and the difficult questions it raises around investor protection from the perspectives of the company shareholders trading venues and supervisory authorities delisting is analysed with a view to finding common ground in the eu and exploring whether delisting should be part of the eu project of a capital markets union in order to answer the question of harmonisation at the european level the book also considers approaches in jurisdictions outside europe in particular the book looks at the legal situation in australia hong kong india south america and the usa offering a comprehensive and authoritative discussion of the major questions for listed companies who want to go private the book will be of great interest to academics lawmakers supervisors lawyers and judges the book s companion website bloomsbury pub delisting stock corporations provides access to reports and questionnaires on specific eu member states

the new edition of a comprehensive overview of the modern chinese economy revised to reflect the end of the miracle growth period this comprehensive overview of the modern chinese economy by a noted expert on china s economic development offers a quality and breadth of coverage not found in any other english language text in the chinese economy barry naughton provides both a broadly focused introduction to china s economy since 1949 and original insights based on his own extensive research this second edition has been thoroughly revised to reflect a decade of developments in china s economy notably the end of the period of miracle growth and the multiple transitions it now confronts demographic technological macroeconomic and institutional coverage of macroeconomic and financial policy has been significantly expanded after covering endowments legacies economic systems and general issues of economic structure labor and living standards the book examines specific economic sectors including agriculture industry technology and foreign trade and investment it then treats financial macroeconomic and environmental issues the book covers such topics as patterns of growth and development including population growth and the one child family policy the rural and urban economies including rural industrialization and urban technological development incoming and outgoing foreign investment and environmental quality and the sustainability of growth the book will be an essential resource for students teachers scholars business practitioners and policymakers it is suitable for classroom use for undergraduate or graduate courses

the acclaimed historian rescues from an undeserved obscurity one of rome s emperors a simply fascinating and extraordinary historical study midwest book review constantius is an important but almost forgotten figure he came to the fore in or around 410 when he was appointed magister militum master of troops to honorius the young emperor of the western roman empire his predecessor stilicho had been murdered by his own troops and much of gaul and hispania had been overrun by barbarians or usurpers one by one constantius eliminated the

usurpers and defeated or came to terms with the various invading groups most notoriously he allowed the visigoths to settle in gaul in return for their help in defeating the vandals and alans who had seized parts of hispania a decision with far reaching consequences constantius married honorius sister and was eventually proclaimed his co emperor however the eastern roman emperor honorius nephew refused to accept his appointment and constantius was preparing a military expedition to enforce this recognition when he died suddenly having been emperor for just seven months ian hughes considers his career assessing his actions in the context of the difficult situation he inherited

in dieser festschrift für prof dr carl christian freidank zeigen renommierte fachvertreter aus der wissenschaft und praxis aktuelle problemfelder auf und geben handlungsempfehlungen zu den bereichen rechnungslegung steuern corporate governance wirtschaftsprüfung und controlling das sehr breite spektrum an aktivitäten und tätigungsfeldern des jubilars spiegelt sich auch in den beiträgen wider

this book gives a detailed and authentic account of the life and experiences of french warship crews from the revolution up to trafalgar it describes the recruitment and composition of crews the different duties performed and the living conditions they had to endure at sea their experiences of fighting the british are covered in depth from preparing the ship for action to the violent discharges of heavy calibre guns the often gruesome realities of sea warfare are revealed through pictures and contemporary testimonies

by analysing the irish development strategy this book questions its much portrayed success the republic of ireland has followed an export oriented development path relying on foreign direct investment inflows as the main development agent however this chosen path of development has led to growing industrial social and developmental polarisations despite the indisputable impressive overall growth figures growth is primarily driven by the investing multinationals and the inequality of earnings have been exacerbated thus questioning the irish growth model s success

so called personalized health and precision medicine consist of a plethora of distinct endeavors ranging from pharmacogenomics to big data medicine these endeavors are set out to tailor treatment and prevention to different combinations of data on the biological behavioral social and environmental determinants of health currently reaching the trial of implementation across a diverse range of local and national contexts these innovations call for a thorough empirical scrutiny of the normative practical and technical reconfigurations that they engender personalized precision approaches to medicine demand substantive normative work that consists in reforming social contracts in healthcare and in ensuring a consistent commitment to change from both institutional actors and citizens
