the book demonstrates the importance of Britain in the early dissemination of Japanese art in the West and analyses British reactions to Japanese art both theoretical and artistic. This book differs from most others on Japonisme in that it deals with Britain rather than France and is concerned with an early period. It discusses design as well as fine art, gives the first comprehensive account of the debate among Victorian design theorists on Japanese art and utilises a wealth of

little known source material it also proposes a radically new interpretation of whistler s japonisme

large international corporations and accountants representing international interests require the most up to date information regarding corporate tax issues in countries around the world corporate taxes worldwide summaries provides vital information on the tax systems of over 100 countries organized to make it easy to assess each system s impact on investment and planning decisions this title covers corporate income taxes the sample computations simplify complex issues all countries are updated on an annual basis to reflect their latest tax changes

includes annual reports for the physics and astronomy departments
