the first comprehensive philosophical analysis of the davos debate between ernst cassirer and martin heidegger

what does it mean to be human we invite the reader to discuss this most fundamental issue in philosophy and to do so in an intercultural framework the question of the human was the starting point for a legendary discussion between two german philosophers who met in davos in 1929 we return to this historical event and re imagine the debate between martin heidegger and ernst cassirer from a global perspective generating twenty papers from elaborate discussions our authors contribute to the thought experiment by inviting the japanese philosopher nishida kitarō from kyoto and other japanese thinkers into the debate to overcome

the challenge of eurocentrism inherent to these historic days in davos

in the spring of 1929 martin heidegger and ernst cassirer met for a public conversation in davos switzerland they were arguably the most important thinkers in europe and their exchange touched upon the most urgent questions in the history of philosophy what is human finitude what is objectivity what is culture what is truth over the last eighty years the davos encounter has acquired an allegorical significance as if it marked an ultimate and irreparable rupture in twentieth century continental thought here in a reconstruction at once historical and philosophical peter gordon reexamines the conversation its origins and its aftermath resuscitating an event that has become entombed in its own mythology through a close and painstaking analysis gordon dissects the exchange itself to reveal that it was at core a philosophical disagreement over what it means to be human but gordon also shows how the life and work of these two philosophers remained closely intertwined their disagreement can be understood only if we appreciate their common point of departure as thinkers of the german interwar crisis an era of rebellion that touched all of the major philosophical movements of the dayÑlife philosophy philosophical anthropology neo kantianism phenomenology and existentialism as gordon explains the davos debate would continue to both inspire and provoke well after the two men had gone their separate ways it remains even today a touchstone of philosophical memory this clear riveting book will be of great interest not only to philosophers and to historians of philosophy but also to anyone interested in the great intellectual ferment of europe s interwar years

die davoser disputation zwischen martin heidegger und ernst cassirer 1929 gehört zu den schlüsselereignissen der philosophie des 20 jahrhunderts hinter ihrem offiziellen thema kant und die kant interpretation des neukantianismus stand ein grundsätzlicher konflikt über paradigm philosophischer theoriebildung existenz versus kultur geschick versus geschichte die bereitschaft zu angst und tod gegen die befreiende kraft der symbolischen formgebung die entscheidung der deutschen für hitler und den politischen totalitarismus war ausdrücklich eine entscheidung gegen programme und orientierungen die in der cassirerschen philosophie mit positiven werten besetzt sind autonomie des menschen und humanität der kultur aus diesem grunde bleibt davos gerade für das verständnis auch der deutschen kulturgeschichte und ihrer politischen bedeutung im 20 jahrhundert signifikant

this work examines how social and political events intertwined and influenced philosophy during the early 20th century ultimately giving rise to two different schools of thought analytic philosophy and continental philosophy

bien au delà de la seule philosophie le débat à davos en 1929 entre cassirer et heidegger a marqué l histoire des idées il a même donné naissance à des récits passablement légendaires qui négligeaient le contexte historique précis un nouveau regard s impose

à la lumière des œuvres publiées depuis lors les vingt cinq tomes de l'édition allemande de référence de cassirer ne sont disponibles que depuis 2007 0s y s ajoutent les dix sept tomes du nachlass depuis 2017 des 102 volumes de la gesamtausgabe de heidegger édition de référence mais sans garantie scientifique moins d'une dizaine reste programmée mais d'ores et déjà la publication des cinq premiers volumes des cahiers noirs a permis d'engager une relecture critique de l'ensemble c'est donc à présent seulement que l'on peut véritablement évaluer les projets contrastés des deux auteurs. Ces enjeux intéressent notamment le statut de la rationalité et des sciences en particulier celles de la culture aussi bien que le statut de la technique parmi les formes symboliques et tout autant l'opposition entre la démocratie et la théologie politique entre la légitimité du cosmopolitisme et l'ontologie identitaire enfin entre la possibilité même d'une éthique ou son rejet de principe. Tous ces thèmes contradictoires exigent aujourd'hui une révision critique non seulement rétrospective mais aussi ancrée dans le présent car au-delà même de la philosophie des courants de pensée et des forces politiques en Europe et dans le monde poursuivent ces deux voies qui s'opposent aujourd'hui.

The historical dictionary of Heidegger's philosophy is the first encyclopedic dictionary devoted to the life and work of this famous and influential German philosopher. It includes explanatory abstracts for his most important writings and critical discussion of his most obscure concepts. Also included is information about Heidegger's contemporaries who influenced his work or were influenced by his work. A classified bibliography provides not only the most complete listing of Heidegger's writings, lectures, and courses to date but also information on the most prominent critical and interpretive studies of his work. The dictionary is thoroughly cross-referenced, both for the seasoned scholar and the first-time student, making this book an invaluable companion to the works of Heidegger and his contemporaries.

A fascinating and accessible account in his entertaining book, Mr. Eilenberger shows that his magicians' thoughts are still worth collecting even if with hindsight we can see that some performed too many intellectual conjuring tricks. *Wall Street Journal* A grand narrative of the intertwining lives of Walter Benjamin, Martin Heidegger, Ludwig Wittgenstein, and Ernst Cassirer, major philosophers whose ideas shaped the twentieth century. The year is 1919, the horror of the First World War is fresh for the protagonists of time. Of the magicians, each of whom finds himself at a crucial juncture, Benjamin is trying to flee his overbearing father and floundering in his academic career, living hand to mouth as a critic; Wittgenstein, by contrast, has dramatically decided to divest himself of the monumental fortune he stands to inherit in search of spiritual clarity; meanwhile, Heidegger, having managed to avoid combat in war by serving as a meteorologist, is carefully cultivating his career; finally, Cassirer is working furiously on the margins of academia.

applying himself to his writing and the possibility of a career at hamburg university the stage is set for a great intellectual drama which will unfold across the next decade the lives and ideas of this extraordinary philosophical quartet will converge as they become world historical figures but as the second world war looms on the horizon their fates will be very different

a biography of the german jewish philosopher ernst cassirer 1874 1945 a leading figure on the weimar intellectual scene and one of the last and finest representatives of the liberal idealist tradition it traces the development of cassirer s thought in its historical and intellectual setting

presenting a study of martin heidegger s philosophical work *sein und zeit* this book examines several keywords including their function coherence and clarity some of those keywords include aletheia existentials a priori dasein sorge augenblick angst wesens da aussein entwurf and seinkommen
