focus on reading aims to help teachers develop a deep understanding of the multiple skills and factors involved in second language reading development for second or foreign language learners aged 5-18. It equips teachers with practical skills for the effective teaching and assessment of second language reading to students with different learning needs. The book features key research studies on reading comprehension, considers examples from real classroom practice, and provides activities to help teachers relate the content and objectives to their own teaching context. Additional online resources at oup.com/elt/teacher for Esther Geva is full professor in the Department of Applied Psychology and Human Development at the Ontario Institute for Studies in Education, University of Toronto. Gloria Ramírez is associate professor in the Faculty of Human Social and Educational Development at Thompson Rivers University, British Columbia.

Packed with easy-to-use tools and resources, this book presents intensive intervention strategies for K-5 students with severe and persistent reading difficulties. Filling a key need, the authors describe specific ways to further intensify instruction when students continue to struggle. Chapters address all the fundamental components of reading: phonological awareness, phonics, and word recognition; reading fluency; oral language; language and reading comprehension; and writing to read. The authors discuss the design and implementation of intensive instruction and provide effective teaching techniques and activities grounded in the principles of data-based individualization. The book includes concrete recommendations for determining students' particular needs and monitoring their progress, an NCTQ exemplary text for reading instruction.

Knowledge of word meanings is critical to success in reading. A reader cannot fully understand a text in which the meaning to a significant number of words is unknown. Vocabulary knowledge has long been correlated

with proficiency in reading yet national surveys of student vocabulary knowledge have demonstrated that student growth in vocabulary has been stagnant at best this volume offers new insights into vocabulary knowledge and vocabulary teaching articles range from a presentation of theories of vocabulary that guide instruction to innovative methods and approaches for teaching vocabulary special emphasis is placed on teaching academic and disciplinary vocabulary that is critical to success in content area learning our hope for this volume is that it may spark a renewed interest in research into vocabulary and vocabulary instruction and move toward making vocabulary instruction an even more integral part of all literacy and disciplinary instruction
