examining the astronomical alignments of the main egyptian monuments the author shows that almost none of them is oriented to the
rise or set of sirius or orion at the time of construction how is it possible the reader will discover that in reality all are oriented in
some way to the rising points of the stars of orion or sirius when they were in the extreme phases of their cycle since there is not only
one of the most important egyptian monuments that escapes this rule of orientation it is evident that it was the true secret technique
behind these choices being a specialist in stellar astrology in the last part of the book the author shows how these stellar mechanisms
have worked well beyond the field of archaeoastronomy he illustrates the most important encadrement by declination active for
thousands of years and still active involving some of the brightest stars in the firmament we will see how and why giza and jerusalem
been the places where it has most strongly manifested the greatest effects in the field of sacred and religions albeit in different ways
and for different reasons the truth is that the sacred astronomy practiced by the egyptians is completely unknown to contemporary
scholars moreover it was not a simple belief or superstition of that people it is the supreme science that describes how the cosmos
really works and not only for the events of sacred history the egyptian priests and initiates probably derived this knowledge from a
tradition dating back to the dawn of time since these stellar configurations regulate not only the most important events of sacred and

prophane history but also the places the events that occur their knowledge may open new scenarios for human knowledge far superior and far more radical of the much acclaimed scientific discoveries that are not able to identify the primary and occult causes of events nor to reveal the mystery that surrounds our existence

the techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events as in reality they only capture the last links in the chain of celestial causes that underlie them in fact the primary causes of all events always and only reside in the eighth sphere that is in the sky of the constellations and fixed stars in this book the stellar astrology techniques are developed and applied to the real prediction of world events but also to natal charts heaven and the stars that populate it are living beings the various parts of the starry sky constellations parts of constellations asterisms and single stars are not isolated but communicate with each other and therefore must be conceived as parts of a community similarly to the relations between men who live on this earth indeed our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds and just as happens between men and between specific groups of men between some of these parts of the sky there are privileged relationships this book explains which are the astronomical and astrological factors that highlight these ties of kinship thus also indicating the existence of similar relations existing between the things of the world linked to those stars it is a real science based on rigorous criteria and in this book it is illustrated by providing the student with a general method that he can then apply to any person thing or event he intends to study in depth it will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart only in this way astrology becomes what it should always be that is the sapiential matter par excellence as the only one capable of explaining and demonstrating the true nature and origin of earthly reality

the bilingual title of this volume contrappunti counterpoints addresses the culturally interrelated dynamic of its substance the reflections and stories of giovanni cecchetti exquisitely written in his native italian but from the psychocultural perspective of contemporary americana and with illuminating forays into the greek and latin classics to have grappled asserts cecchetti with different languages and clashing cultures has enriched our lives our awareness of the depth of humanity which runs through ourselves and others whatever our nationality it has also enriched our native tongue bringing radically new meanings to every word that we utter the dynamic between environment s and language so sensitively rendered in raymond petrillo s translation is as essential to the life of this volume as it is to the lives of the many people who grapple with the same existential binomial on a daily basis at various levels

la parola esoterismo deriva dal l aggettivo greco esoterikós interno etimologicamente utilizzato per definire l insegnamento delle cose nascoste che la tradizione riserva a un ristretto gruppo di persone pronte ad accogliere un sapere segreto che si trasmette immutato da secoli pur vivendo in una società razionale evoluta e tecnologica l uomo non smette di interrogarsi su questioni che vanno al di là della pura dimensione materiale dell esistenza e si lascia affascinare da misteri di epoche lontane magie di civiltà remote segreti di

culture intriganti e sconosciute riti di sette e società segrete in questo libro roberto tresoldi fornisce dettagliate spiegazioni sui principali temi e simboli esoterici esamina gli autori e le opere più importanti getta una nuova luce sulle interpretazioni più controverse traccia un quadro completo sulle principali questioni un'opera ricca e completa e al tempo stesso leggibile e chiara per indagare sui temi più dibattuti e anche per scoprire aspetti finora semisconosciuti dell'esoterismo quanto le sue discipline e correnti abbiano permeato la nostra cultura e come caratterizzino anche la nostra vita quotidiana
